THE DIME BASE-BALL PLAYER.

INTRODUCTION.

THE National Game of Base-Ball is now undoubtedly the most popular summer pastime in America. In every way is it suited to the American character. It is full of excitement, quickly played, and it not only requires vigor of constitution, manly courage, and pluck; but also considerable power of judgment to excel in it. Moreover, Base-Ball, when played in its integrity, is entirely free from the objectionable features which too frequently characterize other prominent sports of the country.

What Cricket is to an Englishman, Base-Ball has become to an American. In England, Cricket has more devoted admirers and more ardent followers than any recreation known to the English people. On the Cricket field—and there only—the Peer and the Peasant meet on equal terms; the possession of courage, nerve, judgment, skill, endurance and activity alone giving the palm of superiority. In fact, a more democratic institution does not exist in Europe than this self same Cricket; and as regards its popularity, the records of the thousands of games played each year, which include the names of Lords and Commoners, Divines and Lawyers, Legislators and Artisans, and Literateurs as well as Mechanics and Laborers, show how great a hold it has on the people. If this is the characteristic of Cricket in aristocratic and monarchical England, how much more will the same characteristics mark Base-Ball in democratic and republican America.

Those who remember the leading Base-Ball contests of 1857, at Hoboken, then the head-quarters of the fraternity, and the scene of the principal matches, can not but be impressed with the contrast between the style of play then in vogue, and that which prevails now. The change for the better is nearly on a par with the vast increase in popularity Base-Ball has attained within the past ten years; and ere a few more seasons have come and vanished, we trust to see the game so improved as to render further changes in its rules unnecessary.

The improvements which have been introduced year after year, have been the result of each season's practical experience, and not of any special theory in connection with the game. In 1857 the boyish rule of the bound catch was in vogue, and at that time the National Association included about twenty clubs, located within a radius of less than twenty miles of New York. At this period, too, it was little more than a game calculated for exercise during the leisure hours of a summer afternoon, possessing comparatively few attractions as affording means for an exciting contest for the palm of superiority in athletic skill. Men of forty years of age and upwards could excel in it, and but a few weeks' practice at the game was necessary to enable a man to take a creditable position as a player. How different is its position now! What a change has taken place in ten short years! Now Base-Ball is the equal of Cricket as a scientific game—that is, as a game requiring the mental powers of judgment, calculation and quick perception to excel in it—while in its demands upon the vigor, endurance and courage of manhood, its requirements excel those requisite to become equally expert as a cricketer. In regard to its growth in popularity, the ocean boundaries of the United States are not sufficient to limit its extent; for, like Cricket among Englishmen, Base-Ball has been played by Americans in distant parts of the world, while at home it has been permanently established as the National pastime of the American people.

As each season's experience in the game develops some new phases, or points out the errors of previous amendments of the rules, of course each year will create new work for the Committee of Rules; and, of necessity, it will be some years hence before alterations in the rules, to a more or less extent, will have become needless and disadvantageous. As it has been, for a century past, in Cricket, so will it be in Base-Ball for years to come, and in Cricket we have seen the batting conquer the bowling, and anon the bowling gain supremacy over the batting, and as the balance of power weighed down on the one side or the other, just in proportion were the rules adjusted so as again to equalize things. Just so is it in Base-Ball. In 1861, '2 and '3, the pitching had a decided advantage over the batting, and hence the necessity of rules limiting the powers of the pitcher. Since then the batting has gradually but surely gained on the pitching, and it therefore becomes necessary either to restrict the powers of the batsman, or to give more latitude to the pitcher; and in making a choice of rules for either object, the only question to be decided is, which will most subserve the interests and attractiveness of the game. We present this view of the question of changes in the rules, to the attention of those who hastily and without consideration, blindly oppose all amendments to the rules.

The Game of Base Ball

BASE-BALL is played by nine players on a side; one side taking the bat, and the other the field. The latter occupy the following positions in the field: Catcher, Pitcher, First, Second and Third Basemen, Short Stop, and Right, Left and Center Fieldsmen. The side that wins the toss, have the choice of taking the bat or the field at their option. The batsman stands at the home base, on a line drawn through its center—parallel to one extending from first to third base—and extending three feet on each side of it. When he hits the ball, he starts for the first base, and is succeeded by player after player until three are put out, at which time the side occupying the field take their places at the bat, and, in like manner, play their innings.

When the batsman succeeds in reaching the home base, untouched by the ball in the hands of an adversary, and after successively touching the first, second and third bases, he is entitled to score one run; and when he hits the ball far enough to admit of his making the four bases before it is returned, he makes what is termed a home run. Nine innings are played on each side, and the party making the greatest number of runs wins the match. In case of a tie, at the close of the ninth innings, the game must be continued, innings after innings, until one or other of the contesting sides obtains the most runs. And if any thing occur to interrupt or put a stop to the game before five innings on each side have been played, the game must be drawn. The rules and regulations of the game define all further particulars in reference to it.

First Rules of Base Ball.

SECTION 1. The bases shall be from "home" to second base 42 paces; from first to third base 42 paces equidistant.

SECTION 2. The game to consist of 21 counts or aces, but at the conclusion an equal number of hands must be played.

SECTION 3. The ball must be pitched and not thrown for the bat.

SECTION 4. A ball knocked outside the range of the first or third base is foul.

SECTION 5. Three balls being struck at and missed, and the last one caught, is a hand out; if not caught, is considered fair; and the striker bound to run.

SECTION 6. A ball being struck or tipped, and caught either flying or on the first bound, is a hand out.

SECTION 7. A player, running the bases, shall be out, if the ball is in the hands of an adversary on the base, as the runner is touched by it before he makes his base—it being understood, however, that in no instance is a ball to be thrown at him.

SECTION 8. A player running, who shall prevent an adver-

sary from catching or getting the ball before making his base, is a hand out.

SECTION 9. If two hands are already out, a player running home at the time a ball is struck, can not make an ace if the striker is caught out.

SECTION 10. Three hands out, all out.

SECTION 11. Players must take their strike in regular turn.

SECTION 12. No ace or base can be made on a foul strike.

SECTION 13. A runner can not be put out in making one base, when a balk is made by the pitcher.

SECTION 14. But one base allowed when the ball bounds out of the field when struck.

It will be at once perceptible to all who will contrast the above rules with those at present in force, that the game of Base-Ball, at that period, was not to be compared to the systematic and, to a certain extent, scientific game that is now such an attractive feature of our American sports and pastimes.

The simple rules in question were those adopted by the old Knickerbocker Club in 1845, and they were in vogue up to the period of the first Base Ball Convention in 1857. Since then the rules have been amended and improved, season after season, by Conventions representing the most influential clubs in the country. There is now but one playing code governing the entire country. In 1845 there were the New York rules, the New-England rules, and the Philadelphia—town ball—rules.

Measuring the Ground.

THERE are several methods by which the ground may be correctly measured; the following is as simple as any: Having determined on the point of the home base, measure from that point, down the field, *one hundred and twenty-seven feet four inches*, and the end will indicate the position of the second base; then take a cord *one hundred and eighty feet long*, fasten one end at the home base, and the other at the second, and then grasp it in the center and extend it first to the right side, which will give the point of the first base, and then to the left, which will indicate the position of the third; this will give the exact measurement, as the string will thus form the sides of a square whose side is ninety feet. On a line from the home to the second base, and distant from the former *forty-five feet*, is the pitcher's first point, the second point being six feet further, on the same line. The foul-ball posts are placed on a line with the home and first base, and home and third, and should be at least one hundred feet from the bases. As these points are intended solely to assist the umpire in his decisions in reference to foul balls, they should be high enough from the ground, and painted, so as to be distinctly seen from the umpire's position. Flags are the best for the purpose.

CONSTITUTION

Article I.

SECTION 1. This club shall be known as the _____ Base Ball Club of _____ and shall consist of not more than _____ regular members.

Article II.

SECTION 1. Those desirous of becoming members, can be proposed at any meeting; but must be balloted for at the ensuing meeting.

SEC. 2. Proposals for membership must be seconded by some member of the club other than the one proposing.

SEC. 3. At a ballot for membership _____ negative votes shall exclude the candidate.

SEC. 4. All persons who are elected members, must subscribe to the Constitution and By-Laws, pay their initiation fee and regular dues, and furnish their address to the Secretary of the club, within _____ days after notice of election, or forfeit all claim of membership.

SEC. 5. Honorary members must be elected by a unanimous vote of the members present at a regular meeting. They are not required to pay either initiation fee or dues, but are to be subject to the laws of the club.

SEC. 6. Any member desirous of withdrawing from the club, must tender his resignation in writing at a regular meeting; no resignation shall be accepted from any member who is in arrears for dues to the club.

Article III.

SECTION 1 The officers of this club shall consist of a President, Vice-President, Secretary, Treasurer, and three Directors whose term of office shall be one year.

SEC. 2. The election of officers shall be by ballot, and shall take place at the first regular meeting in _____. They shall be balloted for separately, and must receive a majority of all the votes polled, to entitle them to an election, and shall enter upon their respective duties immediately thereafter.

SEC. 3. It shall be the duty of the President to preside at all meetings; to enforce a proper observance of the Constitution and By-Laws of the Club; to appoint all committees, not otherwise provided for, and have the casting vote in case of a tie upon any question.

SEC. 4. The duties of the Vice-President shall be to perform those of the President, in the absence of that officer.

SEC. 5. The duties of the Secretary shall be to keep all the books of the club, except those of the Treasurer, attend to all correspondence, call all meetings of the club, keep a roll of the members, which he shall call at the opening of every meeting; and such other duties as may be found in the following articles.

SEC. 6. The duties of the Treasurer shall be to receive and disburse all the funds of the club; keep a book of individual accounts; pay all bills made or approved by the President, and render vouchers for the same; and at each regular meeting, when called upon to do so, report to the presiding officer the financial condition of the club.

SEC. 7. It shall be the duty of the directors to take charge of the necessary implements of the club; determine the time to commence and close the season for field exercise; and attend to all miscellaneous duties not otherwise provided for.

SEC. 8. In case of any office becoming vacant, the vacancy shall be immediately filled by a new election.

Article IV.

SECTION 1. The stated meetings of the club shall be held monthly, at 8 o'clock, P. M.

SEC. 2. ——— members shall constitute a quorum for the transaction of business at regular meetings.

SEC. 3. The President shall call extra meetings for business, at the written request of a regular quorum of members, or when he may deem it expedient.

SEC. 4. The days for field exercise shall be such as may be appointed from time to time at the regular meetings of the club.

SEC. 5. All committees shall report at the next meeting after their appointment, except when the nature of their business requires a longer time.

Article V.

SECTION 1. Every alteration, amendment, or addition to the Constitution or By-Laws, shall be delivered to the President in writing, who shall publish the same to the club, and at the next regular meeting it shall be considered and adopted, if two thirds of the members present concur.

BY-LAWS.

Article I.

At the regular meetings of the club, the following order of business shall be observed: 1st, calling the roll; 2d, reading the minutes of the previous meeting; 3d, collection of dues and fines; 4th, proposing members, and election thereof; 5th, reports of committees; and 6th, miscellaneous business. A motion for adjournment shall always be in order.

Article II.

All persons elected members of this club shall pay an initiation fee of — dollars, and each member shall pay a — due of — dollars.

Article III.

No expenses for refreshments on match days shall be paid out of the funds of this club. All such expenses to be defrayed by individual subscriptions only. And all assessments levied on the members of this club, shall be paid or not, at the option of each member assessed.

Article IV.

Section 1. Any member who shall use profane language, either at a meeting of the club, or during field exercise, shall be fined — cents.

Sec. 2. Any member disputing the decision of the Umpire during field exercise, shall be fined — cents.

Sec. 3. Any member refusing obedience to the Captain during field exercise, and while he has lawful authority, shall pay a fine of — cents.

Sec. 4. Any member who shall absent himself from a business meeting without a sufficient excuse, shall be fined — cents.

Sec. 5. Any member, either at a meeting for business, or field exercise, not coming to order when called upon to do so by the President or Captain, shall be fined — cents.

Sec. 6. Any member refusing to pay the fines and dues imposed by these By-Laws, or who shall absent himself from field exercise for the space of three months, may be suspended or expelled by a vote of — of the members present at a regular meeting.

SEC 7. Any member under suspension is subject to dues, but can not either vote or participate in field exercise.

Article V.

Members when assembled for field exercise will be directed by two Captains, who shall be designated by the presiding officer of the club present. The Captains are to have absolute control of the game, and shall designate each position the player is to occupy in the field, which position can not be changed without the consent of the respective Captains. The presiding officer will also designate some member to act as Umpire, whose duty, on such occasions, shall be to keep the game in a book, reserved for that purpose, and also note all violations of the By-Laws. He shall decide all disputes relative to the game, and shall collect the fines incurred during the game, and pay the same to the Treasurer. If there be not a sufficient number of the members of the club present when a match be made up, others, not members, may be chosen to make up a game, which game shall not be broken up to admit members arriving on the ground later than the time appointed for commencing play. In all other cases members shall have the preference.

Article VI.

Any alteration, addition, or amendment of these By-Laws shall be made in the same manner as provided in Article —, Section —, of the Constitution.

Our readers will perceive that the Constitution and By-Laws just given contain no fines for non-appearance on practice-days, experience having shown that such are almost useless, partly from the difficulty attending the collection of such small amounts, but principally from the valid excuses rendered by the absentee.

Clubs are now known either as "Amateur" or "Professional" clubs, according as they employ professional players in their club. Any club having more than two professionals in their organization, is liable to be rated as a professional club. Amateur clubs are allowed one professional player to take charge of a ground. Professional clubs are those who have a majority of their nine composed of paid players.

ON SCORING IN BASE-BALL.

The system of scoring now in vogue throughout the country was first introduced by the author of this book in 1867, and since then it has been very generally adopted.

The scorer of a base-ball match has either to perform a very simple task, or he has a duty to attend to which requires his close attention to every movement of the players in the field. To record the simple outs and runs of a match requires only the use of the figures 1, 2, and 3 for the purpose of recording the outs made by each player; and only a dot (.) for each run scored; these are added up at the close of the match, and the total of each placed opposite the name of the batsman making them, the score of the runs made each innings being placed at the foot of the column of each inning. This record only gives the simple scores of outs and runs in the game.

To score a game, however, in such a manner as to provide correct and reliable data for a true estimate of the skill of each player at the bat and in the field in a game, involves considerable more work. We shall now proceed to describe in full our latest and improved system of scoring in base-ball matches, by means of which a full and correct analysis of each player's skill can be readily arrived at, at the close of each season.

The only true estimate of a batsman's skill, is that based on the number of times he makes his bases on hits, not by errors of the fielders, but by what is known as "clean" hitting. For instance, if a batsman hits a ball to the short stop, which the latter stops easily but throws wildly to the first base, the batsman may thereby get home on the error and score his run, while he would not be really entitled to his first base by his hit. On the other hand he may, by a sharply-hit ground-ball, be enabled to reach his first base in safety by means of his good batting, and yet, by the inferior batting of his successor, he may be easily put out at second base from being forced off. It will be seen therefore that while in the one case he scores a run on a poor hit, in the other he is charged with an out on a good one. This shows how unreliable the score of outs and runs is as a criterion of good batting.

Before proceeding further, we give below a copy of a score, such as is ordinarily prepared for the press, in which the runs and first base hits show the batting record; and the total number of players each fielding put out, and the number of times he assisted others in putting out players, shows his fielding record. The score given is that of the first professional game of the season of 1871, played at Fort Wayne, Indiana, May 1st, of that year, between the Forest City nine, of Cleveland, and the Kekionga nine, of Fort Wayne. It proved to be the shortest score made in a regular match during the season.

First base by errors—Kekionga 0; Forest City, 4. Double play by Carey, 1. Umpire—Mr. J. L. Blake, of the Live Oak Cincinnati Club. Time of game, 2 hours.

As we before remarked, the most reliable data on which to base an estimate of a batsman's skill, is that of the record of the number of times he secures his first base by "clean hits," that is, not by errors on the part of the fielder, such as wild throws, dropped fly-balls or palpable muffs, but by skillful hitting only. In addition thereto is, of course, the data of the total number of bases so made; but inasmuch as spectators are so liable to be mistaken in their estimate of the total bases scored on hits, this record is not as reliable as that of the number of times the first base is so made, for there is but a slight chance of mistakes being made in a record of how a batsman makes his first base.

A clean hit, giving the first base, is recorded by a mark as follows, †. A similar hit, giving the second base, by a mark as follows, ‡; and one giving the third base by a mark as follows, §; the latter is known as a clean home run, viz., a hit so good that it carries the ball to the outer field, out of the reach of the fielders. In re-

errors bases scored by errors in fielding, we use the following signs: For a wild throw we make this mark, —•. For a dropped fly ball a round mark, thus **O**, and for a muffed ball a mark **U**. Now by the above figures a full record can be made of bases made by clean hits and also by errors.

We now come to the instructions in regard to what constitutes bases on "clean hits." A base is made on a clean hit when the ball is sent from the bat out of reach of a fielder, and in such a manner as to admit of the batsman's making his first, second or third base before the ball can be fielded, so either base as the case may be. For instance, the batsman makes his first base by a clean hit when the ball is sent sharply above the ground out of reach of either of the in-fielders, or if he sends it "sloxy" over their heads, and yet not far enough to the outfield to enable them to catch him out. He also is entitled to his base on his hit if he sends a hot ball to the short stop or third baseman, and the ball be partially stopped but not in time to throw it to the base; and, of course, he is entitled to a base on his hit if the ball be sent either over the heads of the out-fielders or along the ground out of their reach. In fact, any "hot" ball which goes by the in-fielders to the outfield is, from lack of reach, gives the batsman his base on a clean hit.

The cases when batsmen are not entitled to bases on hits are as follows: 1st, when a ball from the bat is dropped by the feeder; 2d, when, if well stopped, it be wildly thrown to the base; 3d, if it be muffed by the feeder; 4th, if it be muffed by the batsman when thrown in to him; and 5th, when the player on any of the bases is put out by being forced to vacate his base, for in this latter case any ball hit to a feeder so as to enable him to put out a base runner who is forced to vacate his base, would have put out the striker if it had been thrown to the first base instead of to the second or third. It will be found an easy matter to record how the first base is made, as it is not often made on the errors in the in-field, but when we record the total number of bases made by clean hits, far more care and judgment is required. For instance, if the batsman offers the out-fielders a good chance for a fly-catch, and from lack of skill in judging the ball they either fail to catch it or let it go by them, or if stopped by it to throw it in to the right base, no base should be given on the hit in the first case, and no extra bases from the failure to stop the ball or to throw it in properly. It is only by stopping bounding balls to the out-fielder that the second base can be made on a clean hit, and the third base can only be made on a clean hit when the ball is sent either bounding or on the fly out of the reach of the out-fielders. Hence it will be seen that chances for making more than the first base on clean hits decrease in proportion to the number of bases the batsman tries to run, the first base being made three times to the second's once, and six times as often as the third is.

The preceding page presents a copy of the regular score-sheet now used by all clubs in recording first class matches. It is from Mr. Chadwick's Association Score Book, a copyright work, sold by all dealers in Base-Ball goods.

In the score sheet, of which this is a copy, the full headings of each column appear; but in this we give only the initials of the words. Thus, to the left, the initials represent the words, Runs, Outs, First-base, Total Bases, Muffs, Called Balls, Left and Home-runs. On the right, the initials represent the words, Bases, Fly, L for foul fly-catches, D for foul bound-catches, K for struck out, R for runs out, T for Totals, and A for times assisted.

In recording a game on this form of score-sheet we proceed as follows:

Under the head of "Batsmen" we place the name of the batting nine, and opposite, under the head of "Fielders," we place the name of the opposing nine. These names we re-write on the other page of the book, reversing their order by placing the names which have been recorded as the batting nine on one page, as the fielding nine on the other, and the fielding nine as the batsmen.— the names of the two contending nines thus appearing on the book twice, once as batsmen, and once as fielders. Over the heading "Batsmen" we record the time of commencing the game, and this is done only on the page on which the names of the nine who first go to the bat are recorded, the figures of the hour of the closing the game being placed over the heading "Fielders" on the other page. Over the figures of the innings we record where and when the game was played.

Each fielder is numbered from 1 to 9, and in recording, in the square of each innings, by whom players are put out, these figures are used to indicate the names of the fielders who put him out. The following abbreviations of words used to record the movements of each player during a game are now used by all scorers throughout the country, the system having been indorsed by the National Association in 1864.

A	—put out on first base.	L F	—put out by foul fly catches.
B	" " second base.	L D	" " bound catches.
C	" " third base.	R O	" between the bases.
H	" " home base.	H R	home runs.
F	" by fly-catches.	K	put out by three strikes.

The above, at first sight, would appear to be a complicated alphabet to remember, but when the key is applied it will be at once seen that a boy could easily impress it on his memory in a few minutes. The explanation is simply this—we use the first three letters of the alphabet to indicate the three bases; the first letter of the words "Home" and "Fly," and the last letter of the words, "Bound," "Foul" and "Struck."

The following is the score-sheet of the Atlantic batting and Mutual fielding of the match of Oct. 12, 1868.

	1	1	3	4	1	4	3	2	4		
		2	5	9	10	11	15	15	25		

The above score not only gives the outs and runs made by each batsman in the game, but it also shows how he was put out and by whom. We will explain the first three innings by way of illustrating the system. Pearce was the first batter, and he was fielded out by Flanly, who passed the ball to Mills in time to put him out at first base. This is described as follows: The figure 1 on the lower line shows Pearce to be the first man out, and the figures above them stand in place of the names of the

fielders putting him out, viz., 9 for Flahly—he being the ninth man on the list—and 6 for Mills, the letter A being in place of the word's "first base." Smith was the second man out, as indicated by the figure 2, and he was put out at first base by the fielder of Dwyer and Mills, the figure 2 being in place of Dwyer's name—he being second on the list of fielders—and the 6 for Mills' name. The third striker is Sant, and he made a run, indicated by the letter R, then over corner. Chapman was the fourth striker, and he struck out, the figure 3 showing him to be put out, and the letter K standing for "struck out." The total score of the inning is recorded at the foot of the column.

In the second inning, Mills put out Crane at first base; Mills was put out by Flahly to Mills at first base; Ferguson scored a run, and Zetlin was third out on a foul bound by Dockney, the 7 being in place of Dockney's name and the letters L D standing in place of the word's "foul bound." The total score of the inning is recorded as before, and below is the grand total of the game as far as played.

In the third inning McD and led off by striking out, after which Peck, Smith and Stan scored runs. Then Chapman was put out at second base—shown by the letter B—by Flahly finishing the ball to Dwyer at second base. Crane was left on the second base—shown by the figure and letter thus (2d) in the corner—and Mills was third—put out by the fielding of Sant den to Mills at first base. The total score of the inning was 3, and the grand total of the Atlantic at the close of the inning was 5, shown by the figures at the foot of the column of the inning.

Now all this fighting and abbreviating can be recorded with ease as fast as the movements of the players are made, but though the record shows not only how and by whom each batsman was put out, and also his outs and runs, it does not show how he made his bases, whether by good hits or poor fielding, and as it is very important to get at such data in order to arrive at a correct estimate of a batsman's skill in the game, we use our system of recording bases on hits, a system, by the way, we have used in our reporting for ten years past, but it was only in 1907 that we first gave it publicity to any extent.

Technical Terms in Base-Ball.

Our national game now has its regular technical phraseology, and below we give a dictionary of the terms used in the game, especially compiled by the editor. We first give the technical terms used in reference to the pitching department, then those of the batting, next the fielding, and lastly the general terms in use.

Terms Used in Pitching.

A BALK.—A balk is made when the pitcher either steps outside the lines of his position when making any of the preliminary movements in delivering the ball to the bat, or fails to deliver it after making one or other of such movements.

A FOUL BALK.—This balk is made whenever the player delivering the ball to the bat throws it by an overhand or round-arm throw; should the player delivering such balls to the bat persist in his action, the umpire, after warning him of the penalty, is obliged to declare the game forfeited by a score of 9 to 0.

A BOWLED BALL.—If a ball be bowled along the ground to the bat, the umpire is required to call a balk.

CALLED BALLS.—A called ball is the penalty inflicted on the pitcher for sending a ball to the bat out of the striker's legitimate reach.

CHANCES.—A "chance" in base-ball means an opportunity afforded the pitcher for the fielders to put a player out. A pitcher is never "punished" so long as his pitching affords chances for outs, no matter how many runs the opposing side may score in the game.

DROPPING THE PACE.—This term is applied when the pitcher lessens the speed of his delivery, and substitutes a medium-paced ball for a swift one. It is very effective in some cases.

HEADWORK.—This term is applied to a pitcher who uses his judgment in his work, and brings mental power into play to aid physical skill.

OVER-PITCH.—This term is applied to a ball which is pitched over the catcher's head out of his reach, or so wide of his position, on one side or the other, as to be just as much out of reach as in the first instance.

PITCHER'S POINTS.—These are the two iron quoits laid down on the center of the front and back line of the pitcher's position.

PUNISHING THE PITCHER.—The pitcher is "punished" when the balls he pitches to the bat are easily hit to the field in such a manner as to prevent them from being fielded to put the batsman or base-runner out. No pitcher is "punished" simply because runs are easily scored by his opponents, but only when bases are earned by clean hits off his pitching.

PACE.—This is the technical term applied to the degree of speed with which the ball is pitched to the bat. There are three degrees of pace, viz.: swift, medium, and slow. Creighton was the swift pitcher, or underhand thrower, par excellence, and Martin is the representative medium-paced pitcher. The best slow pitcher is the man who can toss in a ball to the bat which is most likely to deceive the eye of the batsman by the peculiar curve of the line of its delivery.

Slows—Slows are balls simply tossed to the bat with a line

of delivery so curved as to make them almost drop on the home base. When tossed in by a pitcher who has command of the ball, and who knows the weak points of his batting opponents, this style of delivery can be made very effective, but otherwise slow pitching is easy to punish.

UNDERHAND THROWING.—This is the style of delivery adopted by a very swift pitchers—so called. It is done by a quick, whip-like movement of the wrist or elbow.

Terms Used in Batting.

BASES ON HITS.—A base is fairly earned by the batsman when he hits the ball in such a manner that it can neither be caught on the fly nor fielded to any base in time to put any player out. It does not follow that because the striker reaches the first base himself in time—and that, too, not by an error of fielding—that thereby he makes his base on a hit, as the ball may be used to better advantage in putting out the player “forced off.” It must be earned by a clean hit, or he is not to be credited with a base earned.

BASES ON ERRORS.—A base is secured by errors when the striker gets safely to first base either through the ball being “muffed” by the fielder, or thrown wildly to the base player, or not held by him when accurately thrown. A base, too, is secured by an error when an easy chance for a catch is lost, either by the poor judgment or lack of activity of the fielder, or when two fielders both hesitate to take the chance offered.

BATSMAN.—The striker at the bat is called the batsman or “striker” until he has hit a fair ball.

BOUNDER.—A “boulder” is a ball from the bat which bounces out of the reach—not over the heads—of the infielders. It is a ball which first strikes the ground in the infield.

CLEAN HOME RUNS.—This is the term applied to a run obtained by a long hit to the out-field by which the ball is sent out of the reach of the out-fielders so as to admit of a baserunner running round and touching all four bases before he is put out. If he stops on any base, thinking he can not get home in time, he is to be credited only with the number of bases he made before stopping. Ordinary home runs are frequently made from overthrows, or dropped or muffed balls at the out-field. These are not now counted as home runs, as they are the result of errors in the field and not of heavy batting. Home runs, at best, are no criterion of skillful batting, and they are only useful in bringing men home when the bases are all occupied.

DAISY CUTTERS.—A “daisy cutter” is a ball hit sharply and close along the ground from a ball pitched low to the bat. When sent in the right direction they are telling and pretty hits.

FAIR BALLS.—A fair ball is one sent from the bat so as to strike the ground anywhere in front of or on the lines of the field, from home base to third base and home base to first base.

FOUL BALLS.—These are balls sent from the bat which strike the ground back of the foul-ball lines.

FACING FOR A HIT.—The batsman is said to "face for a hit" when he stands in such position as nearly to face the part of the field he desires to send the ball.

FUNGO.—This is a style of batting, useful only in affording out-fielders a chance for practice in taking for high balls on the fly. It, however, gets the bat man out of good batting form, for he has to hit the ball as it falls perpendicularly, and not as it comes to him in pitching, nearly horizontally.

GROUNDER.—A ground hit is a very safe style of hitting if the ball is sent in the right direction. Sharply hit grounders sent to any position, except first base, will generally insure a base, as the fielder, even if he stops it, generally fails to field it in time to the base.

HIGH BALL.—A "high ball" is one hit high in the air, and favorably for a fielder to catch. Long, lag balls are much admired by spectators, but with intelligent and experienced fielders and a good, sharp catcher, every such ball is liable to lead to the striker being put out.

LINE BALL.—A "line ball," or "liner," is a ball sent swiftly from the bat to the field almost on a horizontal line. A catch from such a ball looks handsome; but it is not so difficult a ball to hold as a high foul ball, as the latter has great bias given to it by the bat.

LONG BALLS.—"Long balls" are balls sent either flying or bounding along the ground to the out-fielders. If the former, they ought to be caught; if the latter, they surely give a base.

LOW BALL.—This is a ball sent low to the bat. The legitimate reach of the batsman does not extend lower than a foot from the ground.

ONE, TWO, THREE.—This term is applied to the order of retirement when three batsmen are put out in succession.

PLAYERS RUNNING BASES.—The striker ceases to be considered as such the moment he strikes a fair ball, or when he is obliged to run to first base from failing to hit to the ball after striking at it three times.

POPPING ONE UP.—This term is applied to a ball hit up high, when readily falls into the hands of an in-fielder. It is the poorest hit made.

RUNS.—A player scores a run the moment he fairly touches the home base.

STRIKER.—The batsman is the striker until he runs for the first base after hitting a ball fairly.

SAVE HIT.—This term is applied to high balls sent from the bat which are caught by the infielders, but not far enough out for the out-fielders to catch.

STRIKING OUT.—When the batsman hits at a fair ball three times, and fails to hit it, and the ball is caught, or it be sent to first base in time to put the player out, he "strikes" out.

SHOULDER BALL.—This is a ball sent to the bat on a line with the batsman's shoulder. Some batsmen hit these balls well.

TIMING A BALL.—This is done when you so time the swing of your bat to meet the ball as to hit it at a right angle to the line of your bat, and so as to hit the ball in the center.

Terms Used In Fielding.

ASSISTING.—A fielder assists when he throws a ball to the base on which the base runner is put out, or in any other way assists a fielder to put a player out.

BASemen.—These are the players who occupy the positions of first, second, and third basemen.

CATCHER NAPPING.—A base runner is said to be "caught napping" when a base player or a fielder happens to touch him with the ball while sailing off his base; or when caught between two bases in trying to reach another base.

DOUBLE PLAY.—A double play is made when the fielders put out two men with the ball after it has been hit, and before it is pitched to the bat again, or if two players be put out between the time the ball is pitched to the bat, and before it is again delivered.

DROPPED BALLS.—Any fly ball batted or thrown to a fielder, which is dropped by him before it is settled in his hands, is a "dropped" ball, and should be charged as an error.

FLY TIP.—This is a foul ball held by the catcher, sharp from the bat.

Foul Fly.—Any high foul ball held on the fly is called a foul fly. They are the most difficult fly balls to hold sent from the bat.

FLY CATCHES.—All balls held by fielders from the bat before the ball touches the ground, no matter how, or in what manner they are held, or whether held from the hands of another fielder, are fly catches.

Hot BALLS.—A "hot" ball is one which is either thrown or hit to a fielder with great speed.

IN-FIELDERS.—The in-fielders of the party of nine in a team consist of the catcher, pitcher, short stop, and three basemen.

MISSED BALLS.—A ball is "missed" when the fielder fails to stop it as it comes within his reach, or to pick it up and hold

it so as to throw it in promptly, or to hold it when it is thrown to him accurately.

MUFFINS.—This is a term applied to the poorest class of fielders. A player may be able to hit long balls, and to make home runs, and yet for all that be a veritable muffin, from the simple fact that he can not field, catch, or throw a ball decently. Muffins are the lowest in the class of club nines. Next to them comes the "amateurs," then "second nines," and then first nines.

OUT-FIELDERS.—The three out-fielders in a nine are the left center and right fielders, all of whom ought to be able to throw a ball a hundred yards or more.

OVER THROWS.—Any fielder throwing a ball out of the reach of the player he is throwing to, is to be charged with an "over throw."

PASSED BALLS.—Whenever the catcher allows a ball to pass him on which a base is run, or should he miff a ball, and a base is run in consequence, he is to be charged with a passed ball. No ball can be passed that is not in reach.

RIGHT SHORT.—This is the name of the position in the field occupied by the tenth man in a game, who stands in a similar position between first and second bases, to that occupied by the short stop between second and third. It is the second baseman's position when fielding for batsmen who hit to right field.

RUN OUT.—The fielders run an opponent out when they touch him while he is half way, or nearly so, between the bases. The fielder who touches him is credited with putting him out and the one who passed the ball to such fielder is credited with "assisting."

RUNNING CATCH.—These catches are among the prettiest a fielder can make. They are made when the ball is held on the fly while the fielder is on the run.

TRIPLE PLAY.—Whenever three players are put out by the fielders after a ball has been pitched to the bat, and before it is again sent to the bat, a triple play is said to be made.

WILD THROWS.—A wild throw is made when a ball is thrown by one fielder to another out of the legitimate reach of the fielder the ball is thrown to.

General Technical Terms.

AMATEURS.—There are two meanings applicable to this term, as used in Base-Ball. For instance, amateur players are that class of the fraternity who play ball for exercise and amusement only, the term being in contradistinction to that of professional players, who are those who play Base-Ball for "money, place, or emolument." Again, there is another class of "amateurs," namely, those who, though not expert play-

ers, still play the game well enough not to be enrolled as "muffins."

AN ARTIST—This term is applicable only to a player who is not only experienced and skillful in his use of excellent physical qualifications, but who also uses his mental powers in the game to aid him to excel.

BASE LINES.—The base lines are the lines running from base to base.

BASE RUNNER—A player running the bases after having struck a fair ball.

BASES ON ERRORS.—Any ball hit by the batsman which admits of his taking a base through the failure of the fielder to hold it on the fly, to stop it and field it to the basemen in time, or to throw it to him accurately, gives the batsman his base on an error.

BLANK.—A blank is scored when the party at the bat retire without scoring a run in an inning.

BLIND.—This is a provincial term for a blank score.

DEAD BALLS.—A ball is considered dead when the rules state that it is "not in play," and also when the ball strikes the umpire, in which latter case no player can be put out, or base be run.

DRAWN GAMES.—When any number of even innings exceeding five in a game have been played, and the score be equal, and the umpire decides the game as drawn, it can be so recorded. Or when in such case no fair chance is afforded to play the game out, a drawn game is the result.

EARNED RUNS—A run is earned when it is scored before three chances have been offered the field side to put their opponents out. For instance, A leads off with a base, but B follows with an out on the fly; C hits for two bases, and sends A to third, and D hits for one base, and sends A home. One run is earned. Should E give a chance for an out and a double play, no more runs can be earned even if base hits are made.

EVEN INNINGS—When each nine in a game have played an equal number of innings, the game is said to stand "even innings."

FORCED OFF.—A player is "forced off" a base when he is obliged to leave the base he occupies, owing to the striker's being obliged to run to the first base. No base runner can force another runner to vacate a base under any other circumstances.

HAND LOST.—This is the old term applicable to the "outs" in a game. For instance, the moment a player is put out, the batting side "lose a hand."

INNINGS.—When three men on one side have been put out, the whole side is out, and the inning of that party terminates.

LEFT ON BASES.—Players are frequently left on bases at the close of an inning after earning their first base by a good clean

hit; and in all such cases they should be credited with the fact on the score-book. Generally their being left is the result of the poor batting of those following them, though sometimes poor base running is the cause. When left, after getting bases by errors, no credit should be given.

Lines of Position.—The lines of position on a ball-field are the line of the home base, three feet on each side of the base; and the lines of the pitcher's position inclosing a space of ground six feet square.

Long Balls.—All balls sent to the outer field are known as "long balls." When sent to the field bounding, they are good for bases; but when sent high, they ought to be caught.

Low Balls.—The pitcher is not required to deliver a ball lower than a foot from the ground, as he can not pitch such balls without risk of sending in "bowed" balls.

Order of Position.—The regular order in which a line are called, is as follows: Catcher, pitcher, first, second, and third baseman, short stop, and left, center, and right fielder.

Outs.—The score of outs recorded on the score book refers to the number of times each batsman is put out.

PLAYERS RUNNING BASES.—The striker becomes a player, running on bases the moment he strikes a fair ball, or the moment he strikes the third time at a ball without hitting it.

Pitcher's Points.—The four iron quarts used to mark the lines of the pitcher's positions are termed the "pitcher's points." They must be laid within the lines of his position.

PROFESSIONALS.—Any ball player is a professional player, who receives compensation for his services as a player, either by money, place or emolument.

Whitewashed.—A team are said to be whitewashed when they retire from an inning's play without scoring a single run.

Playing Base-Ball on the Ice.

During the winter months of January and February, 1872, several Base-Ball matches were played on the ice by skaters, and below we give the rules for playing such games, and the scores of the principal games which took place.

Rules for Games on the Ice.

Playing Base-Ball on the ice differs from the field game in regard to the form of the bases and the method of running them. The ordinary rules governing the batsmen, and pitcher, too, are not so strictly observed as in the field game, the impossibility of obtaining a good footing making the operation of pitching and batting rather difficult. In running the bases in a game on the ice on skates, all that is necessary for the base runner to do is to cross the line of the position, after which he can not be put out until he has returned to the base and again leaves it. In order, too, to make the succeeding base, he must cross the line in starting from the base he leaves as well

as the line of the base he runs for. The lines of the bases are marked on the ice in the form of triangles intersecting each other, the lines being three feet in length, and they must inclose a space of three feet square, each line being marked at right angles with the base lines from base to base, and three feet each side thereof. This space forms the base, and within this space the base-player must have some part of his person when he holds the ball, in order to put a player out. The base-runner makes his base if he crosses the line on the base before being touched, or before the ball is held on the base. After hitting a ball on which the batsman can only make one base, he should start from the home base so as to turn to the right in crossing the lines of the base; but in cases where his hit entitles him to two or more bases, then he should start so as to turn to the left. Until he has returned and occupied a base after crossing the line in making it, he can not be put out. Were the regular bases used in games on the ice and the rules of the field game observed, the effort of players to stop suddenly would lead to severe falls, and, therefore, the extended lines for bases are used, and the rules changed to conform to the new arrangement. The essentials for a successful game of ball on the ice includes a large space of good clear ice; a non-elastic and soft ball; a fair day, not windy or too cool; a field cleared of spectators, and two parties of good, plucky skaters. Under these favorable circumstances a really exciting display would be the result. The ball requires to be non-elastic and soft, because a light blow will send it a good distance, and a hard ball sent swiftly to the hands on a cold day is excessively painful, and likely to result in severe injuries. The pitching also should never be swift in a game on ice. The ball should simply be tossed in to the bat; by this means more frequent chances are given to the field for outs, and the game is made a live and lively instead of tedious, as it would otherwise be.

One of the best games played on the ice by skaters, was that which took place on the Hoboken Skating Park, January 27th, 1871, between nines captained by players of the Gotham and Hoboken clubs, the score of which we append.

INNINGS.	1st	2d	3d	4th	5th
Prospect Park.....	0	0	0	0	0—0
Capitoline.....	10	2	8	8	9—37

Fly catches—Wood, 2; Decker, 1; J. Hall, 1; Brown, 1; Gillam, 2; Dunn, 1; Titterton 1. First base by errors—Prospect Park, 1; Capitoline, 12. Runs earned—Prospect Park, 0; Capitoline, 9. Umpire—Mr. Chadwick. Time of game—One hour and thirty minutes.

The Prospect Park ten included several fine skaters, and one veteran ball-tosser, viz.: Andrew Dupignac, of the old Gotham nine of 1856. But opposed to them were the invincible Capitoline ten, with such fine players, as well as skaters, as Pearce, the brothers Hall, and others. As the pitcher of the "Caps," Ferguson did not come in time, Pearce took his place, and it was really a treat to see how cleverly Dick played his points on the village batsmen. In the whole five innings but four first-base hits were made, and but three of the ten made their first base by their batting. He was finely supported in nearly every position, especially by Brown, Wood, the two Halls and Decker. On the other side, Vanderveer pitched very well, but was so badly supported, especially at second base, that though but nine runs were earned, the "Caps" scored no less than 37. In batting, Pearce led on one side, and Vanderveer on the other.

On Captaining a Nine.

The success of a nine—especially a professional team—depends largely upon the ability of the player who has been placed in command of the nine for the season. The Captain

of a nine must not depend entirely upon his playing skill or his ability as a tactician for his success in ruling his men, the one great essential being to command the respect and obedience of his nine. If he does not possess these essentials, he is not fit to occupy the position. The ability to command this respect necessitates the possession of integrity of character, urbanity of temper, and a proper consideration for the feelings of the players under his control; with these qualities a moderate degree of the other essentials will suffice to make a man a good Captain. Without them, the most expert player in the country would fail.

Never take into your nine a member expelled from another club, unless his expulsion can be shown to have been a merely revengeful act, and an unjust punishment.

Make it a regular rule for the nine to practice in their positions at least twice a week, in match or practice-games. In practicing a nine, let every man retain his regular position, and do not let out-fielders play on the bases, or the basemen in the out field.

In order to excite emulation in the nine, have special rewards or prizes for the best score of times the first base is made by clean hits. No prizes should be given for runs made, as, in the effort to excel in this respect, players will frequently run each other out. Neither should prizes be given for home runs, for the reason that the class of batsmen who strive to excel in scoring home runs generally have the poorest average of bases on hits, they scoring about one home run to six or seven outs.

In your treatment of professionals, let them be made to feel that they are members of the club, and not merely hired men. Some Captains are in the habit of speaking to their professionals as if they were so many slaves. This is poor policy in every respect, and the imperious way in which some men use their brief authority, shows their own smallness of mind and low character more than any thing else. A really manly Captain never abuses his authority in this way.

In training up a new nine, never judge of a man's skill by his playing one or two games only. It takes a series of contests either to show a player's ability, or to develop his weak points. It is merely folly to estimate a player's skill by either his fine play in one game, or his poor display in another. Then, again, due allowance should be made for lack of practice. Remember, too, that your steady, earnest workers, who play with a will in every game, are worth two of your dashy, brilliant players, who shine one day, and play listlessly the next. Above all, avoid quick-tempered men, as they lose more games than they help to win.

How to Manage a Field.

One of the old customs in the management of a nine—one now properly obsolete—was that of changing the positions of

the players in the field in nearly every inning. As a general thing, this is the merest child's play. In the early part of the season, when engaged in an unimportant match with a weaker nine, a change or two may be allowable, by way of experiment; but under no circumstances, except those of illness or injury, should a position in the nine—except that of pitcher—be changed during the playing of a match, or, in fact, during the entire season, unless you can substitute a palpably superior player; or in case experience proves the inability of any one man to properly play his position in a nine. The folly of taking a base player off his base because he fails to hold a ball or two, badly thrown or swiftly batted to him; or of putting a base player in the field because the fielder happens to drop a difficult ball to hold or even to miss an easy catch, is so apparent to any ordinary observer, that we are surprised to see it adopted by any but captains of weak judgment. What reason have you to suppose that the player committing an error in one position, and that, too, in one he is familiar with, is going to do better in one he is not at home in, and if he does not, whence the advantage of the change? for, as the game is now played, every position in the field requires to be equally well played to insure success in a match. There is one change, however, that is legitimate and frequently advantageous, namely:

A Change of Pitchers.

In the management of your nine, nothing shows your possession of good judgment more than your tactics in regard to the pitching department. In the first place, a first class team always has two pitchers in it, and also two catchers, each familiar with one man's pitching, and it is in your management of these batteries that much of your success will lie. Put your swift pitcher to work first, and keep him in at least three innings, even if he be hit away from the start; for it will require that time to allow your opponents to become accustomed to the range of the balls, and therefore they will be more likely to strike too quick for a slower delivery when a change is made. In reference to a change of pitching we pre-suppose a proper support of the pitching in the field; should the pitcher not be supported well, however, no change is likely to be of benefit, especially one of from swift to slow pitching. The effectiveness of slow pitching depending greatly upon the skill displayed by the field in making catches. Supposing, however, that with good support in the field the swift pitching is being easily pursued, and runs are being made too fast, if your pitcher is one who cannot drop his pace without giving more game to the bat, you should at once bring in your slow or medium paced pitcher, and at the same time purchase your field for catches by placing your best man in the field, or

ting the short-stop nearly cover second base; and the second baseman play at right short well out, and extending your outfielders about ten yards or so. Your slow pitcher should be an active fielder, as he will have to cover the in-field well, for the basemen will have to lay out well for high balls between the in-field and the out-field. If your change-pitcher can now and then send in a lot of one without any apparent change of delivery, his pitching will be all the more effective; when he does so, however, he should draw in his basemen closer by a private signal. The pitcher should always have an understanding with your two sets of fielders in regard to private signals, so as to be able to call them in closer, or place them out further, or nearer the foul-ball lines, as occasion may require, without giving notice to your adversaries. Warn your outfielders also to watch well the batsmen, so as to be ready to move in the direction he faces for batting. Thus, if the left fielder is in his regular position, and he sees the batsman facing for a hit close to the first base, let him go nearer to the center field, and the center fielder nearer to right, and the right fielder close to if not beyond the foul-ball line. When you feel that your adversaries have in their mind two or three men fond of making showy hits, or of hitting at the first ball that comes close to them as hard as they can, lay your out field in readiness for long fly-balls, extend your basemen for high balls short of the out-field, and then tell your pitcher to send him in a nice one where he wants it, and in nine cases out of ten if your men are well trained, the "splendidly hit ball" will be hit as nicely as you want it. Be careful, however, that you are not tempted to draw in your men too much for low hits; you should consult with your pitcher every inning so as to have the men work according to his pitching. In fact, the pitcher should be allowed to place his men if he have any special object in view, or desires to play any particular points. It is in paying particular attentions to the strategical points of a game that victories are achieved, and not in depending solely on the strength of your nine either at the bat or in the field.

The Positions in the Field.

The players of a nine in Base-Ball may be divided into two classes, in-fielders and out-fielders, and these are subdivided into five other classes, viz.: catchers, pitchers, base-players, short-stops, and outfielders, each class requiring different degrees of skill in their positions, though each must necessarily possess certain attributes alike. The class we shall first consider upon will be the base-players; and in referring to these important members of a nine, we propose giving a few remarks on the base-play of professional players. Each base requires its occupant to be well drilled in the peculiarities of the position, for it is now well known that each base presents different

opportunities for players to exhibit their skill. For instance, the first-baseman must be a sure catch and a man fearless in facing the swiftest thrown balls; but special activity in fielding is less requisite at this position than at the other bases. At the second base, however, activity is the first requisite, while at the third base the most judgment in catching high foul balls and the swiftest and longest throwing done in the in-field are the leading features of the play in that position. Another difference, too, is, that while at the first base the primary object of the player is to hold the ball while on the base, at the second and third bases activity in touching players is the feature.

In appealing for judgment, base-players frequently make important errors. For instance, they should never make two movements to put a player out by touching him when off a base, unless they failed in the first movement; as, should they have put him out by the first movement, and palpably have failed to do so in their second attempt, the umpire will naturally conclude that their second movement was made in consequence of the failure of the first attempt, and decide the player not out when he really was. Appealing for judgment, too, when base players know that they have not put the player out, is poor policy, and for this reason, that when umpires know that a player is up to this tricky unfair dodge, they are very apt to doubt the fairness of all appeals made by such players, unless it is plainly apparent that the man was put out. All base-players require their wits about them, and their eyes open all the time, so as to be ready for points of play, for it is in this that much of the success of a nine depends. Strategy will frequently offset the results of good batting.

The position of short-stop is the most important of any in the in-field; and it is one requiring an exceedingly active player to discharge its duties properly, as it is especially incumbent on this fielder to back up all the positions in the field.

The out-fielders, one and all, require to be pretty good judges of high balls, sure catchers, and long throwers. There is no difference in the ability each position requires, except in instances where the ground is less favorable for fielding in one of the out-field positions, than it is in another, in which case the most active man is required in the poorest part of the field. In locating themselves in the out-field, these players should rather stand out too far than too close in, for they can better run in to catch a short high ball, than to back out for a long high one overhead. The out-fielders should always have an understanding with the pitcher or catcher, so as to be able to move to any particular position by private signal.

On the Use of Ardent Spirits in Training.

Any man now desirous of using his physical and mental powers to their utmost advantage, must ignore first, intempe-

rance in eating, and second, refuse to allow a drop of alcoholic liquor, whether in the form of spirits, wine, or beer, to pass down his throat. We are not preaching "temperance" to the fraternity, but telling them facts, hard, incontrovertible facts, which experience is gradually proving to those who have charge of the training of athletes for feats of physical skill or endurance.

That able American essayist, Mr. James Parton, had an article in the *Atlantic Monthly* for August, 1868, which is one of the most convincing essays on the evils of liquor drinking we have ever read. In fact, if any man can read it attentively, and not be thoroughly convinced of the injurious effects of alcoholic drinks on the healthy system, he must be either too weak to escape the rule of prejudice, or too much the slave of appetite to allow reason to have sway. Our object, in referring to the article in question, is to call the attention of those who train for athletic feats in general, and of the ball-playing fraternity in particular, to the worse than useless effects of alcoholic drinks—whether in the form of spirits, wine, or beer—in training, or as an incentive to extra exertion in any contest in which physical skill or physical endurance is to be tried. Mr. Parton brings strong testimony to bear upon the point of the alleged invigorating qualities of alcoholic drinks. On this branch of his topic he says: 'Every man that ever trained for a supreme exertion of strength knows that Tom Sayers spoke the truth when he said: 'I'm no teetotaler; but when I've any business to do, there's nothing like water and the dumb-bells.' Richard Cobden, whose powers were subjected to a far severer trial than a pugilist ever dreamed of, whose labors by night and day, during the corn law struggle, were excessive and continuous beyond those of any other member of the House of Commons, bears similar testimony: 'The more work I have to do, the more I have resorted to the pump or the teapot.' On this branch of the subject all the testimony is against alcoholic drinks. Whenever the point has been tested—and it has often been tested—the truth has been confirmed, that he who would do his very best and most, whether in rowing, lifting, running, speaking or writing, must not admit into his system one drop of alcohol. Trainers used to allow their men a pint of beer per day, and severe trainers half a pint; but now the knowing ones have cut off even that moderate allowance, and brought their men down to cold water, and not too much of that, the soundest digesters requiring little liquid of any kind. Mr. Bigelow, by his happy publication lately of the correct version of Franklin's autobiography, has called to mind the famous beer passage in that immortal work: 'I drank only water; the other workmen, near fifty in number, were great guzzlers of beer. On one occasion I carried up and down stairs a large form of types in each hand, when others carried

but ere in both lands.' I have a long list of references on this point; but in these lost-racing, prize-fighting days, the fact has become too familiar to require proof. The other morning Horace Greeley, testator, came to his office after an absence of several days, and found letters and arrears of work that would have been appalling to any man but him. He sat himself in at 10 A. M., and wrote steadily, without leaving the room, till 11 P. M.—thirteen hours. When he had finished he had some difficulty in getting down stairs, owing to the stiffness of his joints, caused by the long inaction; but he was as fresh and smiling the next morning as though he had done nothing extraordinary. Are any of us drinkers of wine and beer capable of such a feat? Then, during the war, when he was writing his history, he performed every day for two years, two days' work—one from nine to noon, on his back; the other, from seven to eleven, on the *Tribune*; and, in addition, he did more than would be an ordinary man in the way of correspondence and public speaking. I may also remind the reader that Mr. Beecher who, of all others in the United States, excels most vitally, both with tongue and pen, and who does his work with least fatigue and most gayety of heart, is another of Franklin's 'washed Americans.'

How many ball-players there are who, at match after match, are deluded into the notion that by drinking whisky in the midst of their game, they thereby impart new vigor to their bodies, clear their judgment and spirit and inspire them to greater endurance, when the truth is that the liquor they drink does the very reverse of all these things, as it further nourishes the system, not clears the spirit, on the contrary, inflames the stomach, clouds the brain, and actually works ~~the~~ the whole man.

Rules for Averages.

The following are a series of excellent rules laid down by Mr. H. A. Dobson, of Washington, for making a rational analysis of each player's skill at the bat in base ball games. Mr. Dobson in his argument in behalf of the plan of batting averages which he advocates, says: "Averages of players for a season were formerly determined by taking as a basis the number of outs and runs—he who had the most outs and most runs was considered the best player. The average was made up by dividing the total number of outs and runs by the number of games played. But, as the game progressed seasonably, it was soon found that taking the outs and runs as a standard was not the true way, as many circuits were counted to give a player his run by making his base by a sacrifice, while he who made his base on a safe hit might be labeled out by a poor batter, who would thus gain a run at his brother's expense. The basis of outs and runs was thus dropped, and

"times first base on clean hits" substituted; this is the correct basis from which to work a batting average, as he who makes his first base by safe hitting does more to win a game than he who makes his score by a scratch. This is evident. But yet the averages are not properly arrived at, as the total of first-base hits is still divided by the number of games played. This does very well if the only object be to average each man's hits to a game; but if it be desired to compare the average of numbers of the same nine, or to compare the average of any member of one club with that of another, it is all wrong. In the first place, it is wrong, from the fact that members of the same nine do not have the same or equal chance to run up a good score. In the second place, it is wrong, when comparing averages of players of different nines, as the clubs seldom play an equal number of games.

It is the wish of every club so to arrange its players as to bring its best batters offtest at the bat; therefore, as a general rule, the best batsmen head the list. The effect of this arrangement is to give the three players heading the list a better chance than those below them; for, if the club play ten games, he who heads the list will probably come to the bat ten more times than he who is at the foot of the list, and will therefore have ten more chances to make his average than the last player. According to a man's chance, so should his record be. Every time he goes to the bat he either has an out, a run, or is left on his base. If he does not go out he makes his base, either by his own merit or by an error of some fielder. Now his merit column is found in "times first base on clean hits," and his average is found by dividing his total "times first base on clean hits" by his total number of times he went to the bat. Then what is true of one player is true of all, no matter what the striking order, for if a man go to the bat twenty times in a game, and makes his first base ten times, then $10 \div 20 = 0.50$ —that is, fifty per cent. of his chances yielded him first-base hits. If another man go to the bat in the same game eighteen times, and makes his first base nine times, his average is the same—that is, fifty per cent. of his chances are first-base hits. By the old way the first player would be ranked as the better man, while the fact is they are equals. In this way, and in no other, can the average of players be compared; who play of the same or contesting nines.

To show the working of this system, I will illustrate by supposing a case. In the first place, it must be remembered that the chances or times at the bat must equal the total number of outs, errors, and left on bases; this must not be forgotten, else an error may be committed such as was committed by the scorers of the Athletic and Atlantic clubs in their elaborately-prepared average cards for 1899, where, in every case, the players are on record as having been at the bat less times than they have outs and runs.

Smith is the first and Jones the ninth striker of the champion nine. The club plays fifty matches during the season, each man taking part in every game. The scorer makes up the average the "old way," and Smith is awarded the prize bat which had been offered for the best average of "times first base on hits." Injustice has been done, for Jones should have the bat. It is found that Smith had just fifty more chances than Jones to increase his average, yet, by the "old way," this was not taken into consideration, as will be seen below:

	GAMES.	1ST B.	LEFT.	TIMES AT BAT.
Smith.....	50	150	20	360
Jones.....	50	140	5	310

The average (old way) he obtained by dividing these totals by fifty, the number of figures played, and is carried out decimally:

	1ST. B.	T. B.
Smith.....	3.00	6.00
Jones.....	2.80	5.60

This makes Smith the best man, counting first-base hits.

Now take the new way. Divide the totals by the number of times at the bat, and the average stands decimally as follows:

	1ST B.	T. B.
Smith.....	.416	.833
Jones.....	.451	.900

It will be seen that Jones is actually ahead, for 45 per cent. of his chances gave him first base on hits, while only 41 per cent. of Smith's chances gave first-base hits.

If you will make Jones' chances equal Smith's, then by proportion the score would have been

	GAMES.	1ST.	TOTAL BASES.	LEFT.	TIMES AT BAT.
Smith....	50	150	300	20	360
Jones....	50	162	325	6	360

Then (the men having now equal chances at the bat) the average, the "old way," would place Jones ahead, and it would stand:

	1ST. B.	T. B.
Smith.....	3.00	6.00
Jones.....	3.24	6.50

The averages by the new way would be the same as in the third table.

It is more trouble to make up an average this way than make it up the other way. One is erroneous, one is right.

PROFESSIONAL PLAYERS IN 1871.

As matter for reference we give below a list of the most prominent professionals of 1871, together with their ages, height, weight, birthplace, and clubs they belonged to.

Arthur Allison, center field, age 24, height 5:8, weight 150, born in Pennsylvania, Forest City of Cleveland.

Andrew K. Allison, first base, age 23, height 5:10, weight 150, born in New York, Eckford of Brooklyn.

Douglas Allison, catcher, age 25, height 5:10½, weight 160, born in Pennsylvania, Olympic of Washington.

Robert Addy, second base, age 32, height 5:8, weight 160, born in Rockford, Rockford.

A. C. Anson, third base, age 19, weight 185, height 6:1, born in Illinois, Rockford.

E. P. Atwater, pitcher (sub.) age 26, height 5:7, weight 135, born in New York, Chicago of Chicago.

George Bird, center field, age 21, height 5:9, weight 150 born in Illinois, Rockford.

R. C. Barkes, short stop, age 21, height 5:8½, weight 145, born in New York, Boston of Boston.

J. E. Bass, short stop, age 21, height 5:6, weight 150, born in New York, Forest City of Cleveland.

E. P. Beavins, second base, age 23, height 5:8, weight 138, born in New York, Union of Troy.

Geo. Bechtel, left field (sub.) age 22, height 5:11, weight 165, born in Pennsylvania, Athletic of Philadelphia.

Stephen Belan, third base, age 21, height 5:6, weight 154, born in Cuba, Union of Troy.

Thos. H. Berry, right field, age 26, height 5:6, weight 140, born in Pennsylvania, Neptune of Easton.

N. W. Berthrong, center field, age 27, height 5:6½, weight 140 born in New York, Olympic of Washington.

D. S. Birtall, catcher, age 32, height 5:9½, weight 126, born in New York, Boston of Boston.

Asa Bixnard, pitcher, age 20, height 5:8½, weight 150, born in New York, Olympic of Washington.

Jas. Carlton, first base, age 22, height 5:8, weight 155, born in New York, Forest City of Cleveland.

Geo. C. Chapman, left field, age 28, height 5:11, weight 170, born in New York, Atlantic of Brooklyn.

J. F. Cone, left field, age 28, height 5:9½, weight 171, born in Illinois, Boston of Boston.

Edward Connor, left field (sub.) age 21, height 5.9, weight 156, born in New York, Union of Troy.

W. H. Craver, short stop, age 27, height 5.9, weight 160, born in New York, Union of Troy.

Edgar E. Culbert, left field, age 23, height 5.6, weight 140, born in Pennsylvania, Athletic of Philadelphia.

E. C. Daffy, short stop, age 27, height 5.7½, weight 152, born in Ireland, Chicago of Chicago.

Robert Ferguson, second base, age 26, height 5.9½, weight 149, born in New York, Mutual of New York City.

W. D. Fidler, first base, age 27, height 5.6, weight 137, born in New Jersey, Athletic of Philadelphia.

William Flynn, right field, age 21, height 5.7, weight 140, born in New York, Union of Troy.

T. J. Foley, third base (sub.) age 26, height 5.9½, weight 157, born in Illinois, Chicago of Chicago.

James H. Foran, right fielder, age 23, height 5.6½, weight 159, born in New York, Kekionga of Fort Wayne.

D. W. Force, short stop, age 22, height 5.4, weight 130, born in New York, Olympic of Washington.

Charles Palmer, catcher, age 20, height 6, weight 158, born in Pennsylvania, Neptune of Easton.

Win. Fisher, pitcher, age 27, height 5.9, weight 164, born in Pennsylvania, Rockford.

Scott Hastings, catcher, age 26, height 5.8, weight 161, born in Illinois, Rockford.

Ralph A. Hen, left field, age 21, height 5.8, weight 178, born in Troy, N. Y., Rockford.

Alfred Gedney, left field, age 20, height 5.9, weight 140, born in New York, Eckford of Brooklyn.

John Glenn, right field, age 22, height 5.8½, weight 169, born in New York, Olympic of Washington.

Charles H. Gould, first base, age 23, height 6, weight 172, born in Ohio, Boston of Boston.

George Hall, left field, age 22, height 5.10, weight 140, born in New York, Eckford of Brooklyn.

George A. Heubel, right field, age 21, height 5.11½, weight 178, born in New Jersey, Athletic of Philadelphia.

Nathan Hicks, catcher, age 22, height 5.12½, weight 133, born in New Jersey, Eckford of Brooklyn.

Charles Hokes, catcher, age 23, height 5.11½, weight 175, born in New York, Chicago of Chicago.

Richard M. Hunt, right field, age 21, height 5.9, weight 145, born in New York, Eckford of Brooklyn.

Samuel Jackson, right field (sub.) age 22, height 5.5½, weight 167, born in England, Boston of Boston.

E. Kimball, second base, age 20, height 5.10, weight 160, born in New York, Forest City of Cleveland.

Mart King, center field, aged 22, height 5:9½, weight 176, born in New York, Chicago of Chicago.

Stephen King, left field, age 26, height 5:9, weight 175, born in New York, Union of Troy.

A. G. Leonard, left field, age 25, height 5:7, weight 155, born in Ireland, Olympic of Washington.

F. G. Malone, catcher, age 27, height 5:8, weight 156, born in Pennsylvania, Athletic of Philadelphia.

A. C. Martin, pitcher, age 26, height 5:6, weight 148, born in New York, Eckford of Brooklyn.

M. McAtee, first base, age 25, height 5:9, weight 160, born in New York, Chicago of Chicago.

D. J. Mack, first base, age 21, height 5:7, weight 161, born in Pennsylvania, Eckford.

J. D. McBride, pitcher, age 25, height 5:9, weight 150, born in Pennsylvania, Athletic of Philadelphia.

D. McDonald, right field, age 24, height 5:11, weight 154, born in New York, Athletic of Brooklyn.

M. McGeary, catcher, age 20, height 5:7, weight 138, born in Pennsylvania, Union of Troy.

John F. McMullen, pitcher, age 22, height 5:9, weight 160, born in Pennsylvania, Union of Troy.

Calvin A. McVey, right field, age 22, height 5:9, weight 170, born in Iowa, Boston of Boston.

Levi S. Meyerle, third base, age 22, height 6:1, weight 177, born in Pennsylvania, Athletic of Philadelphia.

E. Mills, first base, age 26, height 5:10½, weight 174, born in New Jersey, Olympic of Washington.

John W. Nelson, third base, age 21, height 5:6, weight 145, born in New York, Eckford of Brooklyn.

Chas. Pabor, right field, age 26, height 5:8, weight 155, born in New York, Forest City of Cleveland.

R. J. Pearce, short-stop, age 26, height 5:3½, weight 161, born in New York, Mutual of New York City.

Lipman Pike, first base, age 24, height 5:8, weight 158, born in New York, Union of Troy.

El. Pinkham, third base, age 22, height 5:7, weight 142, born in New York, Chicago of Chicago.

A. G. Pratt, pitcher, age 21, height 5:7, weight 140, born in Pennsylvania, Forest City of Cleveland.

Thos. J. Pratt, third base, age 28, height 5:7½, weight 150, born in Pennsylvania.

Geo. Redcliffe, short-stop, age 25, height 5:6, weight 140, born in New Jersey, Athletic of Philadelphia.

A. J. Reed, second base, age 20, height 5:6, weight 155, born in New York, Athletic of Philadelphia.

Geo. P. J. Sensenbaker, center field, age 23, height 5:9, weight 170, born in Pennsylvania, Athletic of Philadelphia.

H. C. Schafer, third base, age 24, hight 5:9½, weight 143, born in Pennsylvania, Boston of Boston.

Joseph Simmons, right field, age 24, hight 5:9½, weight 166, born in New York, Chicago of Chicago.

Chas. J. Smith, third base, age 30, hight 5:10½, weight 151, born in New York, Mutual of New York.

James Snyder, short-stop, age 20, hight 5:7, weight 130, born in New York, Eckford of Brooklyn.

A. G. Spaulding, pitcher, age 20, hight 6:1, weight 170, born in Illinois, Boston of Boston.

Joseph Start, first base, age 28, hight 5:9, weight 165, born in New York, Mutual of New York.

E. Sutton, third base, age 20, hight 5:8½, weight 153, born in New York, Forest City of Cleveland.

Martin Swandell, second base, age 26, hight 5:10½, weight 146, born in New York, Eckford of Brooklyn.

C. J. Sweasy, second base, age 23, hight 5:9, weight 172, born in New Jersey, Olympic of Washington.

Fred Treacy, left field, age 24, hight 5:9½, weight 145, born in New York, Chicago of Chicago.

F. A. Waterman, third base, age 25, hight 5:7½, weight 148, born in New York, Olympic of Washington.

James White, catcher, age 25, hight 5:11, weight 175, born in New York, Forest City of Cleveland.

James Wood, second base, age 27, hight 5:8½, weight 150, born in New York, Chicago of Chicago.

George Wright, second base, age 24, hight 5:9½, weight 162, born in New York, Boston of Boston.

Harry Wright, center field, age 36, hight 5:9½, weight 157, born in England, Boston of Boston.

Thomas York, center field, age 22, hight 5:9, weight 165, born in New York, Union of Troy.

George Zettlein, pitcher, age 26, hight 5:9, weight 162, born in New York, Chicago of Chicago.

THE MARCH CONVENTIONS.

THE PROFESSIONAL CONVENTION.

The first annual Convention of the National Association of Professional Ball Players was held in Cleveland on the night of March 4, 1872, and in every respect was it a creditable and successful meeting. The attendance of delegates was not large but it was an influential gathering of some of the best men connected with the professional clubs of the country, and the result was, thoroughly harmonious proceedings, a prompt and systematic transaction of business, the adoption of a carefully revised code of playing rules, and the election of a thoroughly representative corps of officers, the playing class being complimented by the choice of one of the most esteemed of their number as president of the association.

In the absence of President Kerns, Mr. J. Ford Evans, Vice-President of the National Association, was called to the chair.

In calling the meeting to order, Mr. Evans hoped that any business transacted by the Convention would be performed with a good feeling, and that all the proceedings would be harmonious. He believed that the coming season would witness a closer race for the championship than was ever before known, and hoped this Convention would do nothing to cast reproach on the noble game. He wanted all games played squarely, without conceit and without jockeying. On behalf of the Forest City Club he welcomed the delegates. The following clubs were represented:

Athletics, of Philadelphia—By E. H. Hayhurst.

Haymakers, Troy, New York—By C. C. Clark.

Mutuals, of New York City—By A. V. Davidson.

Atlantics, of Brooklyn, New York—By R. W. Ferguson.

Forest Citys, of Cleveland—By H. C. Doolittle.

The delegates appointed but not present, were as follows:

Mr. Pike, of the Olympic Club, of Washington.

Mr. Millar, of the National Club, of Washington.

Mr. H. Wright, of the Boston Club.

The Boston Club and the Olympic Club had delegated Mr. Young and Mr. Evans to represent them, but the Convention very properly refused to allow any proxy voting, and so these clubs, though really members of the Convention, had no voice in the proceedings. The primary cause of the breaking up of the late National Association was the introduction of voting

by proxy, through which means one unscrupulous man, assisted by two or three tools, managed to control the entire Convention to suit his own purposes. Harry Wright was unable to attend the Convention on account of sickness, and all present regretted the absence of the most respected player in the professional fraternity, Harry's integrity of character and thorough good nature making him a general favorite.

The reading of the minutes of the previous meeting being in order, Mr. Young, the secretary, proceeded to read the notes of the meeting held in New York on March 17, 1871, and the special meeting held in Philadelphia on November 3, 1871.

After the reading was completed, Mr. Clark of Troy, moved that the minutes be accepted. Carried.

The treasurer's report was received and adopted.

The next business in order was the election of officers for the ensuing year, and Mr. Davidson rose and stated that he thought a player should be elected President, and not an outsider. He therefore nominated Mr. Robert Ferguson, of the Atlantic Club.

Mr. Clark nominated Mr. E. H. Hayhurst, of the Athletics, for Vice-President, but Mr. Hayhurst declined to accept.

Mr. Davidson then nominated Mr. H. C. Deolittle, of the Forest Citys, which was seconded by Mr. Clark.

Mr. Clark nominated Mr. N. E. Young, of the Baltimore Club, for Secretary.

Mr. Davidson moved that as there was no opposition to the election of these gentlemen, the Secretary be directed to cast one vote, thus making the election unanimous. Adopted.

Mr. Ferguson was then conducted to the chair by Mr. Evans. On taking the chair he thanked the Convention for the honor conferred on him, which he looked upon not only as honor to him but to the playing class. He stated his wish to be, to get through with the business before the meeting as quickly as possible.

It was then voted that no club should have a voice in the Convention unless a delegate sent especially for the purpose was present. This action excluded the Boston and the Olympic clubs.

Mr. Evans wished to know if this excluded the rules proposed by Harry Wright.

The President said that as Harry Wright was not present he could not offer them.

Mr. Evans had no idea of representing any club until he received a request so to do from the Olympics to-day.

Mr. Davidson moved that Mr. Evans be entitled to a vote in the Convention. Carried.

The reports of committees being next in order, Mr. Mason, of the Judiciary Committee, stated that no business had come before it, and therefore he had nothing to report.

Mr. Clark moved the adoption of the report. Carried.

Mr. Evans, Chairman of the Committee on Rules, presented a printed code of playing-rules, which had been prepared for the association by Mr. Henry Chickwick, the late Chairman of the Committee of Rules of the old National Association. This new code, embodying as it did the suggestions of Harry Wright, of the Championship Committee, and that of the Chairman of the Committee of Rules of the Amateur Association, as well as such suggestions as the experience of the season in reporting the games had pointed out as advisable, were taken up section by section, and adopted almost as reported, the changes made consisting of a few alterations of the wording of two or three sections, and the addition of a new rule—the eighth—which included the sections referring exclusively to the professional championship.

Mr. Davidson moved that the next meeting be held in Baltimore on the first Monday of March, 1873. Carried.

The Convention then passed a vote of thanks to the retiring officers, and to the Forest City Club, for the hospitalities extended to the Convention, after which the meeting adjourned to meet as above.

The delegates then partook of refreshments furnished by the Forest City Club, and shortly after dispersed.

THE AMATEUR CONVENTION.

The adjourned meeting of the National Association of Amateur Base-Ball Players was held, March 13, 1872, in the rooms of the German Dramatic Club, in Masonic Hall, Thirteenth street, New York, and though there was a more numerous attendance of delegates than at the December Convention, still there were not enough present to form a constitutional quorum, and, therefore, after a brief consultation the meeting was called to order and an adjournment was had *sine die*. As soon as this had been done the delegates present transacted business in the same manner as if the meeting was the first one called to organize a new association, and the same temporary officers acting, the constitution and by-laws of the former association were reported for adoption by a special committee, with such amendments as the exigency of the case called for, the primary one being the reduction of the number of clubs required to form a quorum from eleven to seven, and the temporary repeal of the eleventh article of the constitution which prohibited amendments being made to the constitution without thirty days' previous notice. The business like manner in which the Convention was run under the new order of things, and the general harmony which prevailed was highly creditable to the delegates; and we may date the permanent establishment of

the Amateur Association from this Convention, as it is now organized, as the representative body of the Amateur clubs of the Middle States and the Association which will give laws to the Amateur class of the fraternity throughout the country. After the new meeting had been called to order by Mr. H. Jewell, of the Excelsior Club, of Brooklyn, with Mr. John Sterling, of the Star Club, as Secretary, and Mr. Thacher, of the Olympic Club, of Philadelphia, as Treasurer, the roll was called and the following clubs were found to be duly represented by delegates:

Alert, of South Orange, N. J. P. McCabe, J. L. Canuana.

Brown University, of Providence, R. I. J. P. Earle.

Champion, of Jersey City. F. B. Wood.

Dramatic, of New York. F. W. Hofele.

Excelsior, of Brooklyn. R. Oliver, W. H. Murtha.

Harvard, Cambridge. A. McBush.

Jasper, of Manhattan College. J. B. Fisher, R. J. Carroll.

Knickerbocker, of New York. J. W. Davis, R. H. Hinsdale.

Mansfield, of Middletown. B. Douglass, Jr., Wm. Ratcliff.

Olympic, of Philadelphia. A. Thacher.

Resolute, of Elizabeth, N. J. James Gale, T. R. Macdiarmed.

Rose Hill, of St. John's College, Fordham. A. J. Cameron, C. C. Marvin.

Rose Hill, of Waterbury, Connecticut. E. Sullivan, E. Maher.

Star, of Brooklyn. J. Sterling, G. W. Lowell.

Silver Star, of New York. Alex. P. Waugh, James Donohoe.

Tecumseh, of Port Richmond, Staten Island, N. Y. T. D. Pearce, G. W. Smith.

Yale, of Yale College, New Haven. C. Deming.

Among the clubs sending delegates, it will be seen that six colleges were duly represented, viz.: Harvard, Yale, Brown University, St. John's College, Seton Hall, and Manhattan College. This is the largest representation from collegiate institutions ever seen in a Base Ball Convention. After the roll-call a committee of three was appointed by the chair to draft a constitution and by-laws, whereupon Messrs. Hinsdale, Lowell and Cameron retired, and very shortly returned and reported the former constitution, as contained in the "Base-Ball Manual for 1871," (the copy in the Association book having been shown to be incorrect,) with the following amendments: Section 4 of Article 4 was changed so as to make seven clubs a quorum instead of eleven, and Article 11 was omitted. On motion, the Constitution, as reported, was adopted. An election for officers was then in order, and on motion a committee was appointed to nominate officers, and they reported the fol-

loving ticket, viz.: for President, Mr. Hinsdale; First Vice, Mr. McCabe; Second Vice, Mr. Ratcliff; Secretary, Mr. Waugh; Treasurer, Mr. Thatcher. On motion, it was resolved to present other nominations, and the name of Mr. F. B. Wood was added to the Committee's list, and after balloting for the office of President, Mr. Wood was declared duly elected, and he took the chair. The other nominees reported by the committee were then unanimously elected, the officers of the new Association for 1872 being as follows:

President, F. B. Wood, of Champion Club, of Jersey City.

First Vice-President, P. McCabe, of the Alert Club, of Seton Hall.

Second Vice-President, T. W. Ratcliff, of Mansfield Club, Middletown, Conn.

Secretary, A. P. Waugh, of Silver Star Club, of New York.

Treasurer, A. Thatcher, of the Olympic Club, of Philadelphia.

A vote of thanks was then tendered the retiring officers.

The President, on motion, then appointed a Committee on Rules, consisting of Messrs. Gale, Sterling and Murtha, the President also naming Mr. Chadwick to act with the committee.

After a brief consultation, the Committee reported in favor of adopting the playing rules of the game which were adopted at the Cleveland Convention, March 4, 1872, with the following exceptions and additions:

In place of section 7 of rule 5 of the Professional Code, the following section was substituted:

SEC. 7. — In playing all matches, nine players from each club shall constitute a full field; and they shall be members of the club which they represent. They also must not have been members of any other club, in or out of the National Association of Amateur Players—college club nines composed of actual students excepted—for sixty days immediately prior to the match. Every player taking part in a regular match game, no matter what number of innings are played, shall be, in the meaning of this section of the rules, considered a member of the club he plays with.

Section 9 of Rule 5, of the same code, was expunged, and in its place the following section was substituted:

SEC. 9. — All series of games played between clubs belonging to this Association, must be completed before November 1 of each year; and the club refusing to complete their regular series before such date shall forfeit such incomplete series.

The following section is also contained in the Amateur Code:

No person who shall be in arrears to any other club than the one he plays with, or shall at any time receive compensation for his services as a player, shall be competent to play in any match. All players who play Base-Ball for place, emolument, or money, shall be regard-

ed as professional players; and no professional player shall take part in any match game; and any club giving any compensation to a player, or having to their knowledge a player in their nine playing in a match for compensation, shall be disbanded from membership in this Association.

In Section No. 1 of Rule Sixth, the word "Amateur" was substituted for the word Professional.

Several amendments were introduced, including one prohibiting proxy voting, and another appointing a Judge Advocate, after which the Convention adjourned to meet March 14, 1873.

PROFESSIONAL CLUB AVERAGES

For 1871.

ATHLETIC (OF PHILADELPHIA.)

The Athletic Club, for the first time in the history of their organization, became the recognized champions of the United States in November, 1871. Below we give the complete statistics of their play for the past season, furnished by their able scorer, Mr. A. H. Wright.

PROFESSIONAL GAMES.

Up to the close of last season, the Athletics had played in all 405 match games, winning 353, losing 51, and one being a tie. In these contests they scored 50 runs and upwards to a game, no less than 89 times, making scores of 162, 131, 119, 118, 114, 114, 107, 106, 104 and 101 runs. The score of their opponents was less than ten runs to a game in no less than 160 of the 405 games. Below will be found an interesting recapitulation of the play of the Athletics from the date of their organization.

DATE	Games Played.	Games Won.	Games Lost.	Athletic Runs.	Average Game.	Opponents' Runs.	Average Game.
1860.....	4	2	2	119 29	3	103 25	3 1

ATLANTIC.

The following are the batting averages of the club for 1871.

PLAYERS.	Games.	1st base hits.	Average.
Rensen	18	41	2 3
McDonald	18	39	2 3
Jas. Hall	16	34	2 3
Gordon	16	14	2 2
Powers	5	12	2 2
Kenny	18	32	1 1
Boyd	16	23	1 7
Carney	10	17	1 7
Dehlman	20	26	1 5
Malone	13	15	1 2
Bardock	8	10	1 2
Noonan	6	7	1 1
Canton	14	14	1 0

BOSTON.

PLAYERS.	No. games.	Times at bat.	First base hits.	Average.	Total hits.	Total put out.	Times assisted.
B. Rice	43	238	89	3 73	128	127	183
McVey	40	214	79	3 69	100	151	16
G. Wright	27	149	53	3 55	81	61	85
Goold	43	220	68	3 09	91	368	11
Spalding	43	213	60	2 81	79	25	65
Birdsall	41	218	60	2 74	75	55	13
Sender	43	211	57	2 70	76	77	106
H. Wright	43	219	59	2 69	70	61	16
Cove	20	94	22	2 33	27	52	4
Jackson	17	78	18	2 30	27	34	44
Brown	29	142	27	1 90	31	49	3

During the season of 1871 the Boston nine played 43 professional games, of which they won 29, lost 12, and one resulted in a tie. Of these games three were forfeited by their opponents, two by the Rockford Club, and one by the Mutuels, the score in each case being 9 to 0. Thus the number of games

actually played, and in which the score as made counted, was 40. Besides the 43 games, one other was forfeited by the Kekionga club. Of the 43 games, 8 were exhibition games, and 33 for the pennant. Twenty-two of the championship games were won by the Bostons, 10 were lost, and one was a tie. In all these games the Boston nine scored in the aggregate 554 runs to 465 for their opponents. The foregoing is a complete record of what each man has accomplished, both in fielding and batting. The list is arranged so that those players having the largest average of first-base hits stand at the head, as by this criterion a player's ability is estimated.

CHICAGO.

The White Stockings played in all twenty-nine championship games, including the one forfeited by the Kekionga Club to them. They won five series, lost one, and their series with the Clevelands and Haymakers was left unfinished. In the twenty-eight championship games actually played, they scored 302 runs, an average of 10-78 to a game, to their opponents' 241, an average of 3-68 to a game. Their highest score in a championship game was 18, and their lowest, 1; the highest by their opponents being 19, and the lowest 1. The following are the averages of the club:

PLAYERS.	Games.	Base Hits.	Men put out.	Times assisted.	Average Base Hits.	Average put out.	Average assisted.
Wood, 2d b.....	26	47	83	70	1 80	3 77	3 18
Treacy, l. f.....	23	41	66	8	1 78	3 70	0 66
McAtee, 1st b.....	24	32	217	2	1 33	10 85	0 61
Hodes, c.....	26	33	50	37	1 26	2 68	1 68
Foley, c. f.....	17	29	26	1	1 17	2 60	0 67
Duffy, s. s.....	24	27	27	74	1 12	1 35	3 70
Zettlein, p.....	26	29	5	24	1 11	0 22	1 60
King c. f.....	18	20	10	14	1 11	2 00	0 53
Pinkman, 3d b.....	22	22	31	39	1 1	1 72	2 16
Simmons, r. f.....	25	25	48	0	1 1	2 28	0 60

The above were the three leading clubs in the championship arena during 1871.

CLEVELAND.

The following are the averages of this club for 1871:

PLAYERS.	Games.	Times at the bat.	1st base hits.	Average.	Put out.	Average.	Assisted.	Average.
J. White.....	47	217	82	33	225	4 78	37 0	78
Kimball.....	47	222	48	21	111	2 36	113 2	40
Pabor.....	47	238	66	28	57	1 21	18 0	37
Allison.....	46	229	67	29	75	1 63	11 0	23
E. White.....	25	118	24	20	58	2 23	8 0	30
Pratt.....	47	217	45	20	42	0 88	67 1	42

Carlton.....	47	237	65	28	472	10 01	8 0	17
Biss.....	36	158	45	22	84	2 33	64 1	77
Johnson.....	25	108	32	29	59	2 36	33 1	32

EUFORD.

The following are the batting averages of the above club for 1871.

PLAYERS.	Games.	Times 1st base.	Average.
Nelson, 3d b.....	31	49	1 18
Gedney, l. f.....	30	46	1 16
Hicks, c.....	31	42	1 11
Martin, p.....	31	37	1 6
Sheley, c. f.....	30	35	1 5
Crappan, r. f.....	26	30	1 4
Swandell, 2d b.....	24	27	1 3
Hildsworth, s. s.....	31	33	1 2
Alison, 1st b.....	30	30	1 0

HAYMAKERS.

The following table presents the batting and fielding averages of the Haymakers in championship games during 1871, the two last forfeited Kekionga games being excluded, and the actual score of the first Kekionga game included:

PLAYERS.	Games.	Base Hits.	Av. base hits to a Game.	No. men put out.	No. times asst.	Av. put out to a game.	Av. asst. to a game.
King, l. f.	29	59	2 03	65	7	2 60	0 29
Pike, r. f.	28	49	1 75	83	17	3 32	0 70
Fynn, l. b.	29	45	1 55	175	17	7 60	0 70
Flowers, s. s.	21	32	1 50	22	68	1 22	3 72
Craver, 2d b.	27	37	1 35	81	57	3 24	2 17
McMullen, p.	9	38	1 31	11	37	0 44	1 54
York, c. f.	29	37	1 27	53	5	2 12	0 20
McHenry, c.	29	36	1 24	78	20	3 12	0 83
Conners (sub.)	7	7	1 00	39	2	5 57	0 28
B. Fan, 3d b.	29	28	0 96	42	49	1 68	2 64

KEKIONGA.

PLAYERS.	Games.	Av. 1st hits.	Average put out.	Average assisted
Foran, 1st b.	19	1 57	5 58	0 13
Mincher, l. f.	9	1 33	2 06	0 00
Mathews, p.	19	1 31	0 75	1 16
Selman, 3d b.	16	1 29	2 50	0 90
Carey, 2d b.	19	1 21	3 00	2 75
Lennon, c.	14	1 07	3 25	0 50
Kelly, r. f.	18	1 00	2 36	0 00
Goldsmith, s. s.	19	0 94	2 16	2 00
Armstrong, c. f.	11	0 80	2 45	0 00

MUTUAL.

The Mutuals had no regular scorer during 1871, and their statistics are necessarily incomplete. The following are the batting averages of the club:

PLAYERS.	Games.	Times 1st base.	Average.
Statt.....	38	69	1 81
Higham.....	25	44	1 76
Walters.....	37	61	1 64
Eggle.....	38	62	1 63
H. Ingham.....	38	54	1 42
Pearce.....	38	53	1 39
Smith.....	16	21	1 31
Ferguson.....	38	49	1 9
O. Mills.....	36	44	1 22
Patterson.....	38	43	1 19

OLYMPIC.

The appended table gives the batting and fielding statistics of the Washington Olympics for 1871:

PLAYERS.	Games.	Base hits.	Av. base hits to a game.	No. men put out.	No. times asst.	Av. put out to a game.	Av. asst. to a game.
Waterman, 3d b.....	32	54	1 68	42	60	1 68	2 40
Allison, c.....	28	46	1 64	55	20	2 29	0 83

AT THE MEETING

THE RULES OF BASE-BALL FOR 1872,

AS ADOPTED BY

THE PROFESSIONAL AND AMATEUR ASSOCIATIONS,

In March, 1872.

RULE FIRST.

THE MATERIALS OF THE GAME.

THE BALL.

SECTION 1.—The ball must weigh not less than five nor more than five and one quarter ounces avoirdupois. It must measure not less than nine inches nor more than nine and one-quarter inches in circumference. It must be composed of india rubber and yarn, and be covered with leather. The quantity of rubber used in the ball shall be one ounce, and the rubber used shall be vulcanized and in mould form.

FURNISHING THE BALL

SEC. 2.—In the first and odd games of a series the ball shall be furnished by the challenging club, and in the second and even games by the challenged club. But when "single" games are played only, the ball shall be furnished by the challenging club. In all cases it shall become the property of the winning club, as a trophy of victory.

THE BAT.

SEC. 3.—The bat must be round, and must not exceed two and a-half inches in diameter in the thickest part. It must be made of wood, and shall not exceed forty-two inches in length.

THE BASES.

SEC. 4.—The bases must be four in number, placed at equal distances from each other, and securely fastened upon each corner of a square, whose sides are respectively thirty yards. The bases must be so constructed and placed as to be distinctly seen by the umpire, and must cover a space equal to one square foot of surface. The first, second and third bases shall be canvas bags, painted white, and filled with some soft mate-

rial; the home base shall consist of white marble or stone, so fixed in the ground as to be even with the surface.

THE POSITIONS OF BASES.

SEC. 5.—The base from which the ball is struck shall be designated the home base, and must be directly opposite to the second base; the first base must always be that upon the right hand, and the third base that upon the left hand side of the striker, when occupying his position at the home base. And in all match games, a line connecting the home and first base, and the home and third base, as also the lines of the striker's and pitcher's positions, shall be marked by the use of chalk, or other suitable material, so as to be distinctly seen by the umpire. The base bag shall be considered the base, and not the post to which it is or should be fastened. The line of the home base shall extend three feet on each side of the base, and it shall be drawn parallel to a line extending from first to third base.

(The amendments to the above rule consist in requiring the rubber used in the construction of the ball to be moulded instead of composed of strip rubber, the latter being twice as elastic as the moulded rubber, because more dense. The other change is in requiring the home base to be made of white stone.)

RULE SECOND.

THE PITCHING DEPARTMENT.

THE PITCHER'S POSITION.

SECTION 1.—The pitcher's position shall be designated by two lines two yards in length, drawn at right angles to the line from home to the second base, having their centers upon that line at two fixed iron plates, placed at points fifteen and seventeen yards distant from the home base. There must also be an iron plate at each end of the front line of the position.

DELIVERING THE BALL.

SEC. 2.—The player who delivers the ball to the bat must do so while within the lines of the pitcher's position, and he must remain within them until the ball has left his hand; and he shall not make any motion to so deliver the ball while outside the line of the pitcher's position.

BALKING.

SEC. 3.—Whenever the player delivering the ball to the bat shall throw it by an overhand or round-arm throw, the umpire shall declare a foul balk, and should the player delivering such balls to the bat persist in his action, the umpire, after warning him of the penalty, shall declare the game forfeited by a score of 0 to 0. Also, when the player delivering the ball makes any

motion to deliver the ball to the bat, he shall so deliver it, and he must not have either foot outside the lines of his position, either when commencing to deliver the ball or at the time of its delivery; and if he fail in any of these particulars, then it shall be declared a balk, in which case any base runner occupying a base shall take one base without being put out.

UNFAIR BALLS.

SEC. 4.—All balls delivered to the bat which are sent in over the striker's head, or on the ground in front of the home base, or on the side opposite to that which the batsman strikes from, or which hits the striker while he is standing in his proper position, or which are sent in within a foot of his person, shall be considered unfair balls, and every such unfair ball must be called in the order of its delivery, after the first ball has been delivered, the first ball to each striker alone to be excepted.

FAIR BALLS.

SEC. 5.—All balls delivered to the bat which are sent in over the home base, and "high" or "low," as the batsman calls for and which are not delivered by an overhand throw or by a round-arm delivery, as in cricket, shall be considered fair balls.

HIT CALLED BALLS.

SEC. 6.—No player shall be put out on any *hit* ball on which a "balk" or a "ball" has been called, and neither shall a strike on a foul ball be called or a base run on such a ball.

DEAD FOULS.

SEC. 7.—Any balls sent to the bat from the pitcher's position, which shall accidentally hit the striker's bat, shall be declared a "dead foul ball," and no base shall be run or player put out on such ball.

PENALTIES.

SEC. 8.—Should the player who delivers the ball to the bat repeatedly fail to deliver to the striker fair balls, from any cause, the umpire must call one ball; and if the pitcher persists in such action, two or three balls. When three balls shall have been called, the striker shall take his first base without being put out; but no base runner shall take a base on third called balls unless he is obliged to vacate the base he occupies. No ball shall be called on the first ball delivered, and not until the ball has passed the home base. With this exception, all unfair balls must be called in the order of their delivery.

(The changes introduced in the above rule consist of adding two iron plates to the pitcher's position to be located at each end of the front line of the position; and of allowing the pitcher to deliver the ball in any way he chooses, except by an overhand throw or by a round arm delivery as in cricket.)

RULE THIRD.

THE BATTING DEPARTMENT.

THE STRIKER'S POSITION.

SECTION 1.—The striker, when in the act of striking at the ball, must stand astride the line of the home base, and distant not less than one foot from that base, and when occupying this position only one foot must be forward or backward of the line of the home base. The penalty for an infringement of this rule shall be the calling of "foul strike," and when three such strikes have been called, the striker shall be declared out. If a ball, on which such a strike is called, be hit and caught, either fair or foul, the striker shall be declared out. No base shall be run on any such called strike. But any player running the bases shall be allowed to return to the base he has left without being put out. As soon as the striker has struck a fair ball, he shall be considered "a player running the base."

ORDER OF STRIKING.

SEC. 2.—Players must strike in regular rotation, and, after the first innings is played, the turn commences with the player who stands on the list next to the one who was the third player out. Any player failing to take his turn at the bat after the umpire has called for the striker, unless by reason of illness or injury, or by consent of the captains of the contesting nines, shall be declared out.

CALLING FOR BALLS.

SEC. 3.—The striker shall be privileged to call for either a high or a low ball, in which case the pitcher must deliver the ball to the bat as required. The ball shall be considered a high ball if pitched between the height of the waist and the shoulder of the striker; and it shall be considered a low ball if pitched between the height of the waist and one foot from the ground.

BALLS NOT CALLED FOR.

SEC. 4.—Should the striker fail to call for either a "high" or "low" ball, in such case no ball shall be called which is delivered over the home base and within the range of shoulder high, and one foot from the ground; provided, also, that the balls so delivered shall not include any balls described in rule 21, section 4th, as "unfair balls."

REFUSING TO STRIKE.

SEC. 5.—Should the striker refuse to strike at fair balls pitched over the home base, and within the specified reach of the bat, the umpire shall call "one strike," and if the striker persists in such action, two and three strikes. When three strikes are called, and the ball be caught either before touching the ground

or upon the first bound, the striker shall be declared out, provided the balls struck at are not those on which balls or barks have been called. If three balls are struck at and missed, and the last one is not caught, either flying or upon the first bound, the striker (or the player running for him) must attempt to make his run, and in such case he can be put out on the bases in the same manner as if he had struck a fair ball. No strike shall be called upon the first ball delivered except the ball be struck at, and neither shall any strike be called when the ball is struck at for the purpose of willfully striking out.

HOW PUT OUT.

SEC. 6.—The striker is out if a foul ball is caught, either before touching the ground or upon the first bound; or if a fair ball is struck, and the ball be held before touching the ground; or if a fair ball is struck, and the ball be held by an adversary on first base, before the base runner touches that base; or if a fair ball be caught from the hands or person of a player before having touched the ground; or if a foul ball be similarly caught after touching the ground but once; or if the striker willfully strike at the ball, either to be put out or to balk the catcher. No fair or foul ball, if caught from any other object than the person of a player, even before touching the ground, shall put a player out.

THE USE OF PRIVATE BATS.

SEC. 7.—The striker shall be privileged to use his own private bat exclusively, and no other player of the contesting nines shall have any claim to the use of such bat, except by consent of its owner.

FOUL BALLS.

SEC. 8.—If the ball, from the stroke of the bat, first touches the ground, the person of a player, or any other object, behind the line of range of home and the first base, or home and the third base, it shall be termed foul, and must be so declared by the umpire, unasked. If the ball first touches the ground, the person of a player, or any other object, either upon or in front of the line of range of these bases, it shall be considered fair. All foul balls must be called whenever the ball, while in the air, is seen to be falling behind the lines of the bases, as above described.

(The only amendments to the above rule are those allowing the striker to take either a backward or forward step on preparing to strike at the ball, provided the striker, when he does strike, has one foot on each side of the line of his position. Private bats can now be used; also in limiting a "low" ball to one delivered within one foot of the ground instead of "knee high.")

RULE FOURTH.

RUNNING THE BASES.

ORDER OF TAKING BASES.

SECTION 1.—Players must take their bases in the order of striking, and when a fair ball is struck and not caught flying, the first base must be vacated, as also the second and third bases, if they are occupied at the same time. Players may be put out on any base, under these circumstances, in the same manner as when running to the first base; but the moment the ball is caught, or the player running to the first base is put out, the other players running bases shall cease to be forced to vacate their bases, and may return to them.

OVERRUNNING FIRST BASE.

SEC. 2.—The player running to first base may overrun it without being put out, provided that in so doing he runs either straight forward, on the line of the foul ball line, or to the right of the base; but should he turn to the left, or attempt to make second base, he shall be liable to be put out, as in the case of running to second, third or home base.

ORDER OF TOUCHING BASES, TO BE TOUCHED.

SEC. 3.—Players running bases must touch them, and, so far as possible, keep upon the direct line between them, and must touch them in the following order: first, second, third and home; and if returning, must reverse this order; and should any player run three feet out of this line for the purpose of avoiding the ball in the hands of an adversary, he shall be declared out, unless he return to such base before the ball be held on it; or if he fail to touch each base he runs for, he shall be declared out.

FORCED OFF BASES.

SEC. 4.—No base runner shall be forced to vacate a base unless as provided in section 1 of this rule; and when the first and second bases, or the three bases, are occupied, and a fair ball is struck the moment the player running to a base is put out, the players occupying the bases ahead of him shall cease to be forced to vacate their bases, and shall be privileged to return to the bases they have vacated, but only at the risk of being put out while off a base.

RUNNING ON FOULS.

SEC. 5.—No run or base can be made upon a foul ball. Such a ball shall be considered dead, and not in play, until it shall first have been settled in the hands of the pitcher, in any part of the field he may happen to be. In such cases, players running bases shall return to them, and may be put out in so returning, in the same manner as when running to first base. Neither can a run or base be made when a fair ball has been caught without having touched the ground, but such a ball shall

be considered alive and in play. In such cases, also, players running bases shall return to them, and may be put out in so returning, in the same manner as when running to first base, but players, when balls are so caught, may run their bases immediately after the ball has been momentarily settled in the hands of the player catching it.

TAKING BASES ON BALKS.

SEC. 6.—When a balk is made by the pitcher, every player running the bases must take one base without being put out, whether it be on a "foul balk" or an ordinary balk.

RUNNING ON FLY BALLS.

SEC. 7.—In the case of a fair hit ball on the fly, the player running the bases shall not be entitled to any base touched after the ball has been hit, and before the catch has been made.

ON RUNNING HOME.

SEC. 8.—A player running the bases shall, after touching the home base, be entitled to score one run, but if a fair ball be struck when two hands are already out, no player running home at the time the ball is struck can make a run to count in the score of the game if the striker or player running the bases is put out before touching the first base.

OBSTRUCTING BASE RUNNERS.

SEC. 9.—If the player is prevented from making a base by the intentional obstruction of an adversary, he shall be entitled to that base, and shall not be put out. Any obstruction that could readily have been avoided shall be considered as intentional.

PUTTING OUT BASE RUNNERS.

SEC. 10.—Any player running the bases is out if at any time he is touched by the ball, while in play, in the hands of an adversary, without some part of his person being on the base, except as provided in section 2 of Rule IV. And should a fielder, with ball in hand, while in the act of touching a base runner while off a base, have the ball knocked out of his hand by the base runner, the latter shall be declared out.

RUNNING BASES ON CALLED BALLS.

SEC. 11.—Any player running the bases, who shall have a base given him on called balls, shall be privileged to run the risk of making all the bases he can by fielding errors beyond the base given him; but in such case he shall be liable to be put out by being touched while off the bases, as described in section 10 of Rule IV.

SUBSTITUTES.

SEC. 12.—No player shall be allowed a substitute in running the bases, except for illness or injury, unless by a special consent of the captain of the opposing nine; and in such case the latter shall select the player to run as substitute.

(The changes in the above rule are as follows: first, the player overrunning first base forfeits the privilege of exemption from being put out if he attempts to make second base after overrunning. Secondly, in allowing the captain of the field side to designate the substitute to run bases.)

RULE FIFTH.

THE GAME.

THE INNINGS.

SECTION 1.—The game shall consist of nine innings to each side, when, at the close of such number of innings, should the number of runs be equal, the play shall be continued until a majority of runs, upon an equal number of innings, shall be declared, which shall conclude the game. All innings must be concluded at the time the third hand is put out.

DRAWN GAMES.

SEC. 2.—Whenever a game of five or more innings on each side is stopped by darkness, rain, or other such causes, and the score at the time is equal on the even innings played, then the game shall be declared drawn; but under no other circumstances shall a drawn game be declared.

FIVE INNINGS TO BE PLAYED.

SEC. 3.—Under no circumstances shall a game be considered as played, or a ball be claimed or delivered as the trophy of victory, unless five innings on each side shall have been played to a close. And should darkness or rain intervene before the third hand is put out in the closing part of the fifth innings of a game, the umpire shall declare "no game."

NO PLAY IN RAIN.

SEC. 4.—No match shall be commenced when rain is falling, and neither shall play in any such game be continued after rain has fallen over five minutes. Should rain commence to fall during the progress of a match game, the umpire shall promptly note the time it began to rain, and should rain continue for five minutes, he shall suspend play directly; and such suspended game shall not be resumed until, in the opinion of the umpire, the ground is in fit condition for fair fielding.

IRREGULAR GAMES.

SEC. 5.—No ball shall be claimed or delivered (except as otherwise provided in these rules) unless it be won in a regular match game; and no match game shall be considered regular if any of the rules of the game be violated, by either of the contesting lines, whether by mutual consent or otherwise.

POSITION OF PLAYERS.

SEC. 6.—Positions of players and choice of innings shall be

determined by captains previously appointed for that purpose by the respective clubs. The nine fielders of each contesting club shall be privileged to take any position in the field their captains may choose to assign them.

LEGAL PLAYERS.

SEC. 7.—In playing all matches, nine players from each of the two contesting clubs shall constitute a full field, and these players must be regular members of the club they represent. They must also not have been members of any other Base Ball club—whether in or out of the Professional Association—or have played in any match game with any other club for sixty days prior to the date of the match they are to play in—matches played prior to April 1st of the season they play in excepted. Every player taking part in a regular match game, no matter what number of innings are played, shall be, in the meaning of this section of the rules, considered a member of the club he plays with; and all matches shall be regarded as “regular” in which nines of two contesting clubs are opposed to each other.

INELIGIBLE PLAYERS.

SEC. 8.—No person who shall, at any time during the year the match is played in, have been constitutionally expelled from another club for dishonorable conduct, shall be competent to take part in any match game; and no player not in the nine taking their position on the field in the third innings of the game, shall be substituted for a player in the nine, except for reason of illness or injury.

BREAKING ENGAGEMENTS.

SEC. 9.—No player who has willfully broken a written engagement to a club shall be eligible to take part in any game played by any clubs of the Professional Association during the year in which such engagement was made. No agreement for any engagement shall be considered as binding upon club or player which is not made in writing and signed by at least one witness. This rule shall be binding, unless its penalties be rescinded by a legal decision given by the Judiciary Committee of the Professional Association.

FORFEITED GAMES.

SEC. 10.—Whenever a match shall have been determined upon between two clubs, play shall be called at the exact hour appointed; and should either party fail to produce their players within thirty minutes thereafter, the party so failing shall admit a defeat, and shall forfeit the ball to the club having their nine players on the ground ready to play, and the game so forfeited shall be considered as won, and so counted in the list of matches; and the winning club shall be entitled to a score of nine runs to none for any game so forfeited. Should

the delinquent club fail to play on account of the recent death of one of its active members, or by an unavoidable accident, however, no such forfeit shall be declared.

(The amendments to the above rule do away with drawn games by mutual consent, and define the duties of the umpire in cases where rain interrupts play. They also allow professional players to play in Southern clubs up to April 1st. The 9th section is new and puts a stop to revolving.)

RULE SIXTH.

THE UMPIRE.

THE DUTIES OF THE UMPIRE.

SECTION 1.—The umpire shall take care that the regulations respecting the balls, bats, bases, and the pitchers' and strikers' positions are strictly observed, and he shall require the challenging club to furnish a ball on which the size, weight of the ball, and the name of the manufacturer shall be stamped. He shall be sole judge of the fair and unfair play, and shall determine all disputes and differences which may occur during the game, and there shall be no appeal from his decision, except through the Judiciary Committee of the Professional Association. He shall take special care to declare all foul balls and balls immediately upon their occurrence, in a distinct and audible manner. He shall, in every instance, before leaving the ground, declare the winning club, and shall record his decision in the books of the scorers. The umpire shall also require that the game be recorded by a scorer for each of the contesting clubs. No game, however, shall be forfeited from the failure of the umpire to properly discharge his duties.

PAYING AND CHANGING UMPIRES.

SEC. 2.—No person shall be permitted to act as umpire in any match if he receives compensation for his services as umpire. Neither shall the umpire be changed during a match, unless with the consent of both the captains of the contesting nines, except for reasons of illness or injury, or for violation of the above rules.

REVERSING DECISIONS.

SEC. 3.—No decision given by the umpire shall be reversed upon the testimony of any player; and neither shall the umpire be guided in his decision by any such testimony. The captains of each nine shall alone be allowed to appeal for a reversal of the decision of the umpire, and then only in the case of a palpable error in misinterpreting the rules.

INTERFERING WITH UMPIRES AND PLAYERS.

SEC. 4.—No person shall be permitted to approach the umpire, or in any manner to interrupt or interfere during the progress of the game. The umpire shall require the captain or

players of the side to the bat to remain at a reasonable distance (at least 15 feet) from the home, first, third base, and outside the foul lines; also, to avoid interfering with the fielders when directing the movements of players running the bases. If either side persists in infringing this rule the umpire shall declare the game forfeited by the score of 9 to 0 against the side violating it.

SUSPENDING PLAY.

SEC. 5.—The umpire in any match shall determine when play shall be suspended; and, if the game can not be fairly concluded, it shall be decided by the score of the last equal innings played; unless one nine shall have completed their innings, and the other nine shall have exceeded the score of their opponents in their incomplete innings, in which case, the nine having the highest score shall be declared the winners; also in all games terminating similarly, the total score obtained shall be recorded as the score of the game.

CALLING "PLAY" AND "TIME."

SEC. 6.—When the umpire calls "play," the game must at once be proceeded with, and the party failing to take their appointed position in the game within five minutes thereafter shall forfeit the game. All such forfeited games shall be recorded as won by a score of nine runs to none, and the game so won shall be placed to the credit of the nine ready to continue the game. When the umpire calls "time," play shall be suspended until he calls "play" again, and during the interim no player shall be put out, or base run or ball called.

ENDING A GAME.

SEC. 7.—When the umpire "calls" a game it shall end; but when he merely suspends play for any stated period, it may be resumed at the point at which it was suspended, provided such suspension does not extend beyond the day of the match.

DEAD BALLS DELIVERED TO THE BAT.

SEC. 8.—Whenever a ball touches the umpire, or is accidentally stopped by him—unless it be a passed ball—it shall be considered dead, and not in play until again settled in the hands of the pitcher while in his position, and no such dead ball shall put a player out, nor shall any base be ran, or run scored on such a ball.

SEC. 9.—In the case of a ball becoming ripped, out of shape, or, in the opinion of the umpire, otherwise unfit to play with, the umpire shall call for a new ball at the end of an even innings, said new ball to be furnished by the club furnishing the ball for the game.

BETTING PROHIBITED.

SEC. 10.—No person engaged in a match, either as umpire,

scorer, or player, shall be either directly or indirectly interested in any bet upon the game.

INFRINGING THE RULES.

SEC. 11.—Any club willfully infringing any rule of the game shall, after trial by the competent Judiciary Committee, be liable, for the first offense, to the penalty of suspension from membership of the Association, for any period the said committee may direct, not exceeding one year; and expulsion from such membership for the second offense. All games in which any of the rules of the Association are infringed, shall also be considered forfeited games, and shall be recorded as games won by a score of nine runs to none, and against the club infringing the rules.

(The changes in the above rules are those defining how professional clubs shall select an umpire, and prohibiting players on the batting side from interfering with fielders.)

RULE SEVENTH.

MISCELLANEOUS.

SPECIAL GROUND RULES.

SECTION 1.—Clubs may adopt such rules respecting balls knocked beyond outside of the bounds of the field as the circumstances of the ground may demand; and these rules shall govern all matches played upon the ground, provided that they are distinctly made known to the umpire previous to the commencement of the game, but not otherwise.

THE CATCHER'S FENCE.

SEC. 2.—No fence shall be erected within ninety feet back of the home base of a ball-field, except such fence marks the boundary line of the grounds on which the field is laid. And in case such fence be located within ninety feet of the home base, then each ball passing the catcher and touching the fence, shall give each base-runner one base without his being put out.

STOPPING THE BALL.

SEC. 3.—If a fielder stops the ball with his hat or cap, or if a ball be stopped in any way by any person or persons not engaged in the game, no player can be put out unless the ball shall first have been settled in the hands of the pitcher while he stands within the lines of his position.

OBSTRUCTING FIELDERS.

SEC. 4.—Any player who shall intentionally prevent an adversary from catching or fielding the ball, or any base runner who shall, in any way, prevent a fielder from catching a fly-ball from the bat—fair or foul—shall be declared out.

THE BATTING SIDE TOUCHING THE BALL.

SEC. 5.—Any player who shall designedly let the ball strike

him, or kick the ball when at the bat, or when running the bases, and thereby prevent an adversary from holding or fielding such ball, shall be declared out.

RULE EIGHTH

CHAMPIONSHIP.

APPLICATION AND ENTRY FEE.

SECTION 1.—All clubs desiring to contest for the championship must make application in writing to the chairman of the Championship Committee, hereinafter mentioned, on or before May 1st of each year, and no clubs shall be admitted after that date, except in case of failure of application to reach him. Each application to be accompanied by a remittance of (\$10) ten dollars. The chairman to keep a record of the clubs so applying, and to announce the names of the clubs contesting for the title, by publication.

THE SERIES OF GAMES.

SEC. 2.—The series for the championship shall be five games, and each club must play five games with every other contesting club at such time and place as they may agree upon, and all games must be played before November 1st of each year.

WINNING THE PENNANT.

SEC. 3.—The club winning the greatest number of games in the championship series, with clubs entering for the championship during the season, shall be declared champions of the United States, and so certified to by a committee of three, who shall be appointed by the chairman of this Convention, and who shall be known as the Championship Committee, and to the chairman of which committee each club shall send its record on or before November 1st of each year.

IN CASE OF A TIE.

SEC. 4.—In case of a tie, in total games, between two or more contesting clubs, the committee shall examine the records of the clubs so tying, and the one having the best average shall be declared champions of the United States.

THE EMBLEM.

SEC. 5.—A championship streamer shall be purchased by the said Championship Committee, with the funds accompanying the application of clubs, and they shall present the same on or before November 15th, of each year, to the club entitled to receive it.

TERMS OF HOLDING THE PENNANT.

SEC. 6.—The club winning the championship at the end of the season shall be entitled to fly the streamer until the close of the following season, and then the streamer must be given to the club that the Championship Committee shall declare to be entitled to receive it.

STANDARD DIME BOOKS.

Games and Pastimes for 1872.

BEADLE AND COMPANY, PUBLISHERS, NEW YORK.

DIME BASE-BALL PLAYER FOR 1872.

(ELEVENTH ANNUAL EDITION.)

Comprising the Proceedings of the last Annual Convention of Base-Ball Players, together with the New Rules and Regulations, Base-Ball Averages for 1871, Statistics and General Records by Clubs for 1871, Report of the March Conventions held in Cleveland and New York, Diagram of a Base-Ball Field, Personals of Seventy-seven eminent Base-Ball Players, together with all matters of interest to Base-Ball players throughout the country, or those interested in the game. Edited by HENRY CHADWICK.

HAND-BOOK OF CROQUET.

A complete Guide to the Principles and Practice of the Game. This popular pastime has, during the few years of its existence, rapidly outgrown the first vague and imperfect rules and regulations of its inventor; and, as almost every house at which it is played adopts a different code of laws, it becomes a difficult matter for a stranger to assimilate his play to that of other people. It is, therefore, highly desirable that one uniform system should be generally adopted, and hence the object of this work is to establish a *recognized method of playing the game.*

CRICKET AND FOOT-BALL.

A desirable Cricketer's Companion, containing complete instructions in the elements of Bowling, Batting and Fielding; also the Revised Laws of the game; Remarks on the Duties of Umpires; the Mary-le-Bone Cricket Club Rules and Regulations; Bets, etc., etc. By HENRY CHADWICK, author of "Base-Ball Player."

YACHTING AND ROWING.

This volume will be found very complete as a guide to the conduct of watercraft, and full of interesting information alike to the amateur and the novice. The chapter referring to the recent great rowing race of the Oxford and Cambridge clubs, on the Thames, will be found particularly interesting.

RIDING AND DRIVING.

A sure guide to correct Horsemanship, with complete directions for the road and field; and a specific section of directions and information for female equestrians. Drawn largely from "Stonehenge's" fine manual, this volume will be found all that can be desired by those seeking to know all about the horse, and his management in harness and under the saddle.

GUIDE TO SWIMMING.

Embracing all the rules of the art for both sexes. Illustrated. By Captain PHILIP PETERSON. Comprising Advisory Instructions; Rules upon entering the water; General Directions for Swimming; Diving; how to come to the surface; Swimming on the Back; how to Swim in Times of Danger; Sea-bathing—how to manage the waves, the tides, etc.; a Chapter for the Ladies; a Specimen Female Swimming-School; how to manage cases of Drowning; Dr. Franklin's "Code" for Swimmers.

For sale by all Newsdealers and Booksellers; or will be sent singly or in packages by mail, *post-paid*, on receipt of price—TEN CENTS each.

BEADLE AND COMPANY, Publishers,

98 William street, New York.

1872.

PECK & SNYDER'S

ASSORTMENT OF PATENT AND FANCY

BASE BALL BATS,

For the coming season is more complete than heretofore offered. We take pains in filling club orders to see that every bat is free of any blemish.

No. 100. Hill's Patent Spring Bat. \$9.00 Per Doz. Best Sapling Ash.

No. 101. Hill's Patent Fluted Bat. \$6.00 Per Doz. Best American Willow.

No. 102. Picked American Willow Bat. \$8.00 Per Doz. Full French Polished.
No. 103. Same as No. 102. Half Polished. \$5.00 Per Doz.

No. 104. American Willow, (Wound Handle). \$6.00 Per Doz.

No. 108. Am. Willow, (Ash Loaded). \$9.00 Per Doz. Lightest and Toughest made.

No. 109. Lyman's Patent Self-Adjusting Bat. \$9.00 Per Doz.

No. 110. Ash and American Willow Bats. \$3.50 Per Doz.

Bats and all other base-ball goods sent C. O. D. everywhere. Clubs ordering goods to the amount of \$10.00 are entitled to our Wholesale prices. Send all orders direct to

PECK & SNYDER, 126 Nassau Street, New York.
